## **The Rise And Fall Of Society:**

The Rise And Fall Of Society Frank Chodorov, 2016-10-21 Frank Chodorov adored the work of Albert Jay Nock particularly Nock's writings on the State and so Chodorov set out to rework Nock's book in his own style with this book being the result. It describes in detail the difference between the State and Society and highlights issues current to this day such as high tax, high spend and loss of freedom. The book illustrates the formation of a society, its government and the eventual dismantling of society by governing political bodies. Rothbard wrote of this book: Frank's final flowering was his last ideological testament, the brilliantly written *The Rise and Fall of Society* published in 1959 at the age of 72. *The Rise & Fall of Society* Chodorov, 2007 Frank Chodorov adored the work of Albert Jay Nock particularly Nock's writings on the State. And so Chodorov set out to do something implausible to rework the Nock book in his own style. Rothbard wrote of this book: Frank's final flowering was his last ideological testament, the brilliantly written *The Rise and Fall of Society* published in 1959 at the age of 72. One reason it was overlooked is that it appeared after the takeover of the American right by statist and warmongers. The Old Right of which Chodorov was a last survivor had died out so there was no one to promote this work. It is amazing that it was published at all. But thank goodness it was. The book available in hardcover and paperback is short, 194 pages but pithy and enormously powerful. Indeed for a book so overlooked the reader will be surprised to find that it might be Chodorov's best work overall. Certainly it is suitable for classroom use or as a primer on economics and society. Insight abounds herein. **RISE AND FALL OF SOCIETY** FRANK. CHODOROV, 2018 **The Ephemeral Civilization** Graeme Snooks, 2002-09-11 The Ephemeral Civilization is an astonishing intellectual feat in which Graeme Snooks develops an original and ground breaking analysis of changing sociopolitical forms over the past 3 000 years. Snooks challenges the prevailing theories of social evolutionism with an innovative approach which also looks ahead to the twenty first century. The Ephemeral Civilization builds on the model of dynamic strategy outlined in the author's highly acclaimed companion volume *The Dynamic Society*. The Ephemeral Society is divided into three parts: theory, history and future. The Rise and Fall of Society Frank Chodorov, 2017-11-19 Excerpt from *The Rise and Fall of Society*: An Essay on the Economic Forces That Underlie Social Institutions. Jurisprudence has come around to the same idea, holding more and more that human behavior is not a matter of personal responsibility as much as it is a reaction of the social forces working on the individual. The tendency is to lay on Society the blame for crimes committed by its members. This too is a tenet of sociology, the increasing popularity of which and its elevation to a science attest to the hold that collectivism has on our times. The scientist is no longer honored as a bold adventurer into the unknown in search of nature's principles but has become a servant of Society to which he owes his training and his keep. Heroes and heroic exploits are being demoted to accidental outcroppings of mass thought and movements. The superior person, the self-starting captain of industry, the inherent genius, these are fictions, all are but robots made by Society. Economics is the study of how Society makes a living under its own techniques and prescriptions.
