## **Thinking Like A Director A Practical Handbook Paperback:**

**Thinking Like a Director** Michael Bloom, 2001-10-17 Concise and engaging Michael Bloom's book is for anyone who has ever uttered the phrase "But what I really want to do is direct." **BOOK JACKET** *The Director's Vision* Louis E. Catron, Scott Shattuck, 2015-05-04 The pursuit of excellence in theatre is well served by the latest edition of this eminently readable text by two directors with wide ranging experience. In an engaging conversational manner the authors deftly combine a focus on artistic vision with a practical organized methodology that allows beginning and established directors to bring a creative script interpretation to life for an audience. **Music Direction for the Stage** Joseph Church, 2015 Theater music directors must draw on a remarkably broad range of musical skills. Not only do they conduct during rehearsals and performances but they must also be adept arrangers, choral directors, vocal coaches, and accompanists. Like a record producer, the successful music director must have the flexibility to adjust as needed to a multifaceted job description, one which changes with each production and often with each performer. In *Music Direction for the Stage*, veteran music director and instructor Joseph Church demystifies the job in a book that offers aspiring and practicing music directors the practical tips and instruction they need in order to mount a successful musical production. Church, one of Broadway's foremost music directors, emerges from the orchestra pit to tell how the music is put into a musical show. He gives particular attention to the music itself, explaining how a music director can best plan the task of learning, analyzing, and teaching each new piece. Based on his years of professional experience, he offers a practical discussion of a music director's methods of analyzing, learning, and practicing a score, thoroughly illustrated by examples from the repertoire. The book also describes how a music director can effectively approach dramatic and choreographic rehearsals, including key tips on cueing music to dialogue and staging, determining incidental music, and underscoring, making musical adjustments and revisions in rehearsal, and adjusting style and tempo to performers' needs. A key theme of the book is effective collaboration with other professionals from the production team to the creative team to the performers themselves, all grounded in Church's real world experience with professional, amateur, and even student performances. He concludes with a look at music direction as a career, offering invaluable advice on how the enterprising music director can find work and gain standing in the field. **The Director as Collaborator** Robert Knopf, 2017-04-07 *The Director as Collaborator* teaches essential directing skills while emphasizing how directors and theater productions benefit from collaboration. Good collaboration occurs when the director shares responsibility for the artistic creation with the entire production team, including actors, designers, stage managers, and technical staff. Leadership does not preclude collaboration in theater; these concepts can and should be complementary. Students will develop their abilities by directing short scenes and plays and by participating in group exercises. New to the second edition: updated interviews, exercises, forms, and appendices; new chapter on technology, including digital research, previsualization, and drafting programs; and web sharing sites; new chapter on devised and ensemble-based works; new

chapter on immersive theater including material and exercises on environmental staging and audience performer interaction
