About this manual

Our aim

The aim of this manual is to help you get the best value from your vehicle. It can do this in several ways. It can help you decide what sort of use the car can do for you, what sort of use it is best for, to provide you with information on engine maintenance and servicing, and give a regular course of action and diagnosis when certain faults occur. However, it is hoped that you will use the manual by looking for the work yourself. On simple jobs it may save the trouble that sending the car into a garage and paying more money, to have work carried out. However, most important, it is of money well be spent by avoiding the costs a garage must charge to cover its labour and overheads.

The manual has drawings and descriptions to show the location of the various components so that their names can be understood. Then the parts are described and photographed in order to show exactly as they exist in your car or on the work.
