moment to talk about the philosophy behind this diet. It's based on the idea that there's no one size fits all approach to nutrition. Everyone is different with unique body types, lifestyles, and goals. However, by following the 90 30 50 structure, you'll have a flexible framework that works with your body, not against it. We will discuss how to set realistic goals, plan your meals, track your progress, and overcome the obstacles that often trip people up when trying to make dietary changes. This approach is not about deprivation or feeling like you're on a diet all the time; it's about creating lifelong habits that make you feel your best inside and out. In the chapters that follow, we'll go in depth about the science behind the diet, the importance of each macronutrient, and the role they play in your overall health.
