

# APA7 reference style guidelines

## The basics | An overview

This image provides you with a guideline for the APA style. It is based on the *Publication Manual of the American Psychological Association* (7th edition). This overview gives the basics, for more information please visit <https://www.apa.org> for more information on this and other reference styles.

## References

### Periodical – No author

Author, A. B. (Year). Title of article. Title of periodical, volume number(issue number), pages. DOI

### Book

Author, A. B. (Year). Title of book. Publisher Name.

### Chapter in edited book

Author, A. B. (Year). Title of chapter. In E.E. Editor (Ed.), Title of book. (pp. 1-8). Publisher name.

### Page on website

Author, A. B. (Date). Title of page. Site name. URL

### Youtube Video

Uploader, A. B. (Date). Title of video [Description]. Youtube. URL

### Podcast (episode)

Host, A. B. (Date). Title of episode [No. 1] [Audio podcast episode]. In Title of podcast. Publisher. URL

## In-Text Citations

### The basics

Always use past tense or present perfect tense when you use in text references e.g., "Jordan (2001) found" or "Jordan (2001) has found." Furthermore, APA style follows the author-date method of references of paraphrases in-text (Jordan, 2001).

For direct quotations longer than 40 words, you require to put the whole quotation inside a text block that is indented by 1/2 inch from the left margin. Place the reference in parentheses after the closing punctuation mark.

### No author

If there is no author, cite the title in the signal phrase or use the first 2 words in the parenthetical citation. Italic for books and reports, while quotation marks are used for article titles, websites, chapters, ...using research ("Finding Glory", 2022).

### One or two authors

Name all authors by their last name. Use the word "and" in the signal phrase and the ampersand "&" in parenthetical citations when using multiple authors. Jordan and Peele (2011) argued that... (Jordan & Peele, 2011).

### Three or more authors

Use the last name of the first author plus "et al." in every citation, unless it creates ambiguity, then add a second author's surname as well.

Gustavo, et al. (2011) noticed that... Besides that, (Gustavo, et al, 2011) also found out that...

Gustavo, Wang, et al. (2011) noticed that... Besides that, (Gustavo, Wang, et al, 2011) also found out that...

### Multiple works in parentheses

When multiple works are used to describe the idea, you need to include all in the parentheses as you would do with a single author's work, but separated by a semi-colon. (Chang, 2019; Kong, 2011)

## Formatting

### The basics

Start with white 8.5 x 11 inch paper and use 1 inch margin on all sides. All the text throughout your paper should be double-spaced. Use appropriate legible fonts (Times New Roman) and font sizes (11-12 points). Use a Page header on each page that says: "TITLE OF YOUR PAPER" and flush with the left margin. Your title should not contain more than 50 characters, else abbreviate it. Insert the Page numbers to the right.

### Title page

Type your "TITLE OF THE PAPER" in the header and include your own name in the upper half of the page. The byline and affiliations are centered on separate lines. For student papers, you must also include the course number and name, supervisor's name and assignment due date.

### Abstract

On a new page write the word: "Abstract" and center it.

On a new line, you can write an abstract of maximum 250 words that summarizes your report.

### Main body

All the body pages should have a header, that includes the page number as well. The margins should be 1 inch all around. Every paragraph should start with an additional indent by 1/2 an inch.

### Reference list

At the end of the paper you can add a reference list on a new page. It should contain the words "References" at the top. All the lines after the each entry should be indented 1/2 inch from the margin on the left. Note that author's names are always inverted (surname first, then initials) for all the authors, unless there are more than 20. All the sources should be in alphabetical order.

Adventures in Graphica Terry Thompson,2008 Comic books and graphic novels known collectively as graphica have long been popular with teenagers and adults Recently graphica has grown in popularity with younger readers as well motivating and engaging some of our most reluctant readers who often shun traditional texts While some teachers have become curious about graphica s potential many are confused by the overwhelming number of new titles and series in both fiction and nonfiction and are unsure of its suitability and function in their classrooms Drawing on his own success using graphica with elementary students literacy coach Terry Thompson introduces reading teachers to this popular medium and suggests sources of appropriate graphica for the classroom and for particular students Taking cues from research that supports the use of graphica with students Terry shows how this exciting medium fits into the literacy framework and correlates with best practices in comprehension vocabulary and fluency instruction Adventures in Graphica contains numerous easy to replicate instructional strategies including examples of how graphic texts can be used to create a bridge as students transfer abstract comprehension strategies learned through comics and graphic novels to traditional texts Adventures in Graphica provides a roadmap for teachers to the medium that the New York Times recently hailed as possibly the next new literary form **U.S.**

Coiera,Yu-Chan Jack Li,2004 A fundamental challenge for medical informatics is to develop and apply better ways of understanding how information technologies and methods can help support the best care for every patient every day given available medical knowledge and resources In order to provide the most effective healthcare possible the activities of teams of health professionals have to be coordinated through well designed processes centered on the needs of patients For information systems to be accepted and used in such an environment they must balance standardization based on shared

medical knowledge with the flexibility required for customization to the individual patient Developing innovative approaches to design and build evidence based careflow management systems is essential for providing the knowledge management infrastructure of health care organizations that seeks to increase performance in delivering high quality care services by efficiently exploiting available resources Parallel challenges arise in the organization of research at the biological and clinical levels where the focus on systematically organizing and supporting processes of scientific inquiry by novel informatics methods and databases are in their very early stages These Proceedings of Medinfo 2004 demonstrate the base of knowledge medical informatics professionals will collectively draw upon in the years ahead to meet these challenges and realize opportunities
