(Social and Political Life)(Chapter – 2) (Role of the Government in Health)

(Class – 7)

### Question 1:

In this chapter you have read that health is a wider concept than illness. Look at this quote from the Constitution and explain the terms 'living standard' and 'public health' in your own words.

#### Answer 1:

- **Living standard:** It means status of living. It defines the economic conditions of any country or any person. Living standard shows how much expense is being incurred towards our status of living.
- **Public Health:** Health means our ability to remain free from illness and injuries and when these services are arranged by the government then it is called Public Health Services. They are linked together so that they cover they cover rural and urban areas.

### Question 2:

What are the different ways through which the government can take steps to provide healthcare for all? Discuss.

#### Answer 2:

In India private healthcare services and hospitals are more in practice. But due to these private hospitals being highly expensive, poor people cannot afford to admit their patients to such hospitals. On the other hand government hospitals are much less in number and also not equipped properly and do not have good experienced doctors.

Therefore to provide healthcare services for all, government should pass a regulation prohibiting private practice of doctors. Apart from this the different ways through which the government can take steps to provide healthcare for all are by following means - opening and maintenance of:

- a) Hospitals
  - b) Healthcare center
  - c) Primary health center
  - d) Dispensaries
  - e) Family welfare center
- 
- Free camps of check-ups
  - Free diagnosis centers
  - Pulse polio and similar type special campaigns
  - Health awareness programs
  - Workshops and seminars
  - Training camps.

### Question 3:

What differences do you find between private and public health services in your area? Use the following table to compare and contrast these.

Facility	Affordability	Availability	Quality
Private			
Public			

#### Answer 3:

Facility	Affordability	Availability	Quality
Private	Somehow affordable	Available	Better
Public	Affordable	Available	Satisfactory

Test List Cornell University. Testing and Service Bureau, 1950      **The Derivation of a Civics Test** Arold William Brown, 1928      **Civic Education in the Twenty-First Century** Donald M. Gooch, Michael T. Rogers, 2015-09-18

Imagine an America where politicians governmental institutions schools new technologies and interest groups work together to promote informed engaged citizens Civic Education in the Twenty First Century brings together scholars from various disciplines to show how such a United States is possible today Inspired by Alexis de Tocqueville s analysis of American democracy in the early 1800s this edited volume represents a multidimensional evaluation of civic education in its new and varied forms While some lament a civics crisis in America today Civic Education in the Twenty First Century raises hope that we can have an informed and active citizenry We find the activities of a number of politicians government institutions schools and interest groups as promising developments in the struggle to educate and engage Americans in their democracy New technologies and new innovations in civic education have laid the foundation for a revitalized American civic ecology With Civic Education in the Twenty First Century we call for the United States to make these practices less isolated and more common throughout the country The volume is broken into three major sections First there are four chapters exploring the history and philosophical debates about civic education particularly with respect to its role in America s educational institutions Then the second section provides seven groundbreaking inquiries into how politicians and political institutions can promote civic education and engagement through their routine operations As some examples this section explores how politicians through campaigns and judiciaries through community programs enhance civic knowledge and encourage civic engagement This section also explores how new technologies like the Internet and social media are increasingly used by government institutions and other entities to encourage a more politically informed and engaged citizenry Finally the third section contains six chapters that explore programs and practices in higher education that are enhancing civic education engagement and our knowledge of them From the virtual civics campus of Fort Hayes State to citizens academies throughout the country this section shows the possibilities for schools today to once again be civics actors and promoters      *US Citizenship Test Practice Book* Michael Phillips, 2025-11-05
