**Making Time for Social Studies** Rachel Swarengin, 2024-12-17 Elementary teachers often struggle to make time to teach social studies. In her book, Rachel Swarengin shows how this can be done in all elementary classrooms with the right tools. Her unit planning process supports teachers as they unpack social studies standards, providing them with strategies and practices specific to social studies that promote students' participation and lasting interest. Grades K-5 teachers can use this book to apply the claim-evidence-reasoning (CER) approach to their assessments. Employ key practices to ensure an enduring understanding of social studies standards. Learn primary source analysis strategies to use with students. Receive completed sample and planning templates for the K-2 and 3-5 grades. Create their own social studies units and daily lesson plans using their completed planning templates. Select grade-appropriate primary and secondary sources and understand the use of each. Contents: Introduction, Chapter 1: Step 1: Unpacking Social Studies Standards, Chapter 2: Step 2: Creating Assessments, Chapter 3: Step 3: Choosing and Analyzing Primary Sources, Chapter 4: Step 4: Choosing and Analyzing Secondary Sources, Chapter 5: Turning Your Unit Into Daily Lesson Plans, Epilogue, Appendix A, Appendix B, References and Resources, Index. [Getting to the Core of Literacy for History/Social Studies, Science, and Technical Subjects, Grades 6-12](#) Vicky Giouroukakis, Maureen Connolly, 2013-05-14 Literacy is not just for English teachers anymore. The new Common Core English Language Arts Standards aren't just for English teachers. Fluent reading and writing are critically important to the study of history, social studies, science, and technical subjects too. What's more, the progress your students make is directly tied to their ability to process information they read and to express their ideas in writing. So how do you make literacy a focus of your teaching without taking time away from essential content? This practical resource, packed with teacher-tested CCSS-based sample lessons, shows you how using the Backward Design approach to set and meet your goals. Each lesson template includes the teaching strategies you'll utilize, ways to incorporate technology and media, variations for differentiation and interdisciplinary connections, links to the work of major educational theorists. Following these models, you'll set the CCSS in your sights and develop lessons that both meet standards and fit your classroom. Before you know it, you'll be infusing reading and writing across your curriculum in purposeful and meaningful ways. **Social Studies for Secondary Schools** Alan J. Singer, 2014-10-08 Now in its 4th edition, this popular text for secondary social studies methods courses integrates discussions of educational goals and the nature of history and social studies with ideas for organizing social studies curricula, units, lessons, projects, and activities. A major theme throughout is that what teachers choose to teach and the way they teach reflect their broader understanding of society, history, and the purpose of social studies education. Advocating an inquiry and activity-based view of social studies teaching that respects the points of view of students and teachers and based in practice and experience, it offers systematic support and open, honest advice for new teachers. Each chapter addresses a broad question about social studies education; subchapters begin with narrower questions that direct attention to specific
