Social Studies Uil 2015 Study Guide:

OECD Skills Studies OECD Skills Strategy Diagnostic Report: Spain 2015 OECD,2015-09-22 Spain's economy is showing clear signs of recovery after a protracted recession. Despite these positive developments significant challenges remain. Spain has amongst the highest unemployment rates in the OECD and the Spanish economy was still smaller in 2014 than it was in 2007. While the

Global Perspectives on Learning Cities Séamus Ó Tuama, Eric Agbessi, Tina Neylon, 2025-09-01 This book examines the social, political and economic rationales which lead to the development of learning cities in diverse settings in Africa, Australia, Asia and Europe. Many of the contributors are practitioners who have played an active part in the development of their learning city. Some contributors are both practitioners and researchers on learning cities. Some are primarily researchers who are focused on understanding learning cities, gauging the benefits and potential of learning cities and formulating new theories and approaches. The book also includes interviews with and contributions from key founding figures in the learning cities movement and in the development of UNESCO's Global Network of Learning Cities. The book explores diverse initiatives that are shaping the lives of people in cities today and into the future, fostering inclusivity, sustainability and resilience. Each chapter offers a unique perspective on the transformative power of lifelong learning and collective commitment. Contributors share their insights from grassroots to high level policy discussions, shedding light on the challenges and triumphs encountered along the way. This is the first major book looking at learning cities across the globe from both theoretical and practical perspectives. What sets it apart is the diversity in the material offered and the geographical and cultural spread of contexts. Cities are becoming ever more important to the future of humanity; learning cities are a vast laboratory of new and innovative ways in which people can learn together to create more fulfilling lives, better opportunities and put into practice on a daily basis the four principles outlined in the Delors Report (1996). Learning to know, Learning to do, Learning to live together, Learning to be. This book is a valuable resource for policymakers, educators and community leaders striving to build more inclusive and sustainable societies. Whether embarking on the journey of developing a learning city or seeking inspiration from successful initiatives, readers will find practical insights and thought-provoking perspectives within these pages.

Promoting sustainable local economic development initiatives Marius Venter, 2022 This book endeavours to outline case studies that promote sustainable Local Economic Development (LED) initiatives. It is generally believed that local governments are the foot soldiers of LED. However, this seems to be a myth as local governments in South Africa and elsewhere have not yet fulfilled this mandate and have been struggling for several years to implement LED initiatives. The distinctive merit of this book lies in the way it combines the South African context with the wider international development context in ways that there is a flow of information and ideas both ways. The book is an essential part of this sequence of ideas development and action at a critical time for strategic action directed at a sustainable future. It showcases case studies and responses to the impacts of globalisation as a bridge between urban, rural

and institutional action and reveals avenues for local government leadership in communities research student engagement and wider interactions **OECD Skills Studies Towards a Skills Strategy for Southeast Asia Skills for Post-COVID Recovery and Growth** OECD,2021-03-02 Skills are central to the capacity of countries and people to thrive in a rapidly changing world Recovering from the COVID 19 pandemic will require countries to co ordinate interventions to help recent graduates find jobs reactivate the skills of displaced workers and use skills effectively in workplaces **Africa and the Sustainable Development Goals**

Maano Ramutsindela,David Mickler,2019-06-13 The book draws upon the expertise and international research collaborations forged by the Worldwide Universities Network Global Africa Group to critically engage with the intersection in theory and practice of the Sustainable Development Goals SDGs and Africa s development agendas and needs Further it argues that and demonstrates how the SDGs should be understood as an aspirational blueprint for development with multiple meanings that are situated in dynamic and contested terrains As the SDGs have substantial implications for development policy and resourcing at both the macro and micro levels their relevance is not only context specific but should also be assessed in terms of the aspirations and needs of ordinary citizens across the continent Drawing on analyses and evidence from both the natural and social sciences the book demonstrates that progress towards the SDGs must meet demands for improving human well being under diverse andchallenging socio economic political and environmental conditions Examples include those from the mining industry public health employment and the media In closing it highlights how international collaboration in the form of research networks can enhance the production of critical knowledge on and engagement with the SDGs in Africa **Perspectives on Lifelong Learning and Global Citizenship**

Sarah Stanlick,Whitney Szmodis,2022-09-06 This book lays the groundwork for the future of global citizenship and it discusses where we are now where to go from here and how all of this fits into a lifelong learning context It incorporates case studies meta narratives and empirical studies to support cosmopolitanism through a lifelong learning lens and is a must read for educators activists non governmental organizations civil society and community organizations The framing for this book is with the United Nations Sustainable Development Goal 4 in mind ensuring inclusive and equitable quality education and promoting lifelong learning opportunities for all with the intent that all learners will acquire the knowledge skills and attitudes necessary to promote sustainable lifestyles human rights gender equality promotion of a culture of peace and non violence global citizenship and appreciation of cultural diversity and of culture s contribution to sustainable development UN Sustainable Development Goal target 4 7 It is through this lens that this book showcases the work of researchers practitioners civil society and thought leaders in global citizenship for lifelong learning While this tension between nationalism and cosmopolitanism exists the wheels of globalization still turn and shape our local national and global connections Through this exploration this book lifts up examples of global citizenship education done well across the age spectrum and in a variety of contexts The binding factor is the core values ethics and moral structure of a world in

collaboration toward its larger human and ecological thriving It unpacks complex topics such as ethical and cultural relativism accountability and responsibility in a global world decolonial education and unmaking ideas of development and ethical models for community based global learning and engagement What voices are missing in the discussion of global learning and global citizenship education
