Sociological Theory Dejerius Burgess, 2018

Sociological theory : classical statements, 6th ed

Sociological theory : classical statements D * Orenstein Ashley (DM.), **Sociological Theory- Classical Statements** Dejerius Burgess, 2019-06-04 The basic insight of sociology is that human behaviour is largely shaped by the groups to which people belong and by the social interaction that takes place within those groups. The main focus of sociology is the group not the individual. Sociologist is mainly interested in the interaction between people, the ways in which people act towards respond to and influence one another. Sociology does not however study everything that happens in society or under social conditions. Classical Sociological Theory continues to include two historical chapters covering the early history of the field as well as its most recent developments. These chapters give students an overview that allows them to put the work of each theorist in its historical social and political context. This book offers students a handy overview of most of what they need to know about classical sociological theory.

Social Sciences, **Sociology**, *Sociological Theory* David Ashley, David Michael Orenstein, 1998

New edition of a text that focuses on how social theory is the result of individuals who were products of their eras and places. Following a few introductory chapters, each chapter is built around one of the primary theorists in the discipline: Emile Durkheim, Herbert Spencer, Hegel, Marx, Weber, Fr.

The Emergence of Sociological Theory Jonathan H. Turner, Leonard Beeghley, Charles H. Powers, 1995. Analyzing in detail the development of sociological theory from 1830 to 1930, this text covers the most important theorists of that period: Comte, Spencer, Marx, Weber, Simmel, Durkheim, Pareto, and Mead. The scholars and schools that influenced these theorists are also closely examined. Coverage includes the origin of the ideas of each theorist, his basic works and contributions, and the legacy of abstract models and principles that he has provided. Sociological theory, written as a complementary volume to Turner's well-respected book on contemporary theory, *The Structure of Sociological Theory*, this text provides readers with an in-depth examination of the major theorists who shaped the first hundred years of sociology.

Sociological Theory Doyle Paul Johnson, 1981 **The Theory of Social Forces**

Simon Nelson Patten, 1896 *The Theory of Social Forces* Patten, 1896 **Classical Sociological Theory** Jonathan H. Turner, 1993. The theme of this collection of articles by Jonathan Turner is that sociology can be a true science and it can develop abstract laws explaining the operative dynamics of the social universe. Rather than blindly worshipping sociology's masters, however, Turner attempts to reinvent sociology as a science that learns the valuable lessons of classical theory and then moves on.

Social World of Ancient Israel, 1250-587 BCE Victor Harold Matthews, Don C. Benjamin, 1993. The most refreshing and innovative approach to ancient Israelite society which I have ever read. Matthews and Benjamin draw extensively and creatively on biblical and ancient Near Eastern literature as well as the newest work in anthropology. This book fills a major need for a masterful synthesis of life in ancient Israel.

This work integrates key theories with biographical sketches of theorists and theories are placed in their historical and intellectual context. Community Reconstruction After an Earthquake Ino Rossi, 1993-11-30. Rossi develops a theory

of the roles of action social actor and structure sociopolitical resources cultural resources and economic resources in disaster studies using the data on community reconstruction after the 1980 earthquake in Southern Italy as a preliminary test of the theory The focus of the study is not the response during the emergency period which immediately followed the earthquake but the long term recovery and reconstruction of the 44 communities which were officially classified as the most heavily damaged Aspects of the post earthquake industrialization of the region are also considered since the physical reconstruction of the destroyed communities is inevitably connected with their socioeconomic development Rossi outlines and tests a new framework which permits prediction of the different speeds of community reconstruction and provides a dialectic theory of the interrelationship between structural and action principles of social action **Faith Outside the Walls** Ron D. Dempsey, 1997 Sociologist Ron Dempsey examines reasons why churches fail to draw the unchurched into their sanctuaries and offers suggestions as to what must be done in a drastically changed culture to disseminate faith outside the walls of the church
