which would not be done, and which would result from that and then provided it can get off at minimum cost... I mean, I've got to do what I've got to do, but I've got to do it in a way that's not going to cost us a fortune. — **John Gutfreund** (1986) — this quote describes the two main goals of a financial institution: to earn a profit, and to do so in a way that minimizes costs.

These changes in *CDKN1A* may relate to gene imprinting, since *CDKN1A* is imprinted in the human and mouse brain. The imprinting control region (ICR) is located within the first 100 nucleotides, which was shown to support endogenous transcription of *CDKN1A* in mouse embryonic fibroblasts. In a recently published study, a naturally occurring chimaeric allele of the *CDKN1A* gene was used to test the imprinting control region. The *CDKN1A* allele containing a unique deletion, known as a deletion of 10 nucleotides (D10), resulted in TET-activated transcription of a cloned mouse *CDKN1A* construct. Thus, *CDKN1A* is imprinted in mouse brain. In humans, however, it is not clear whether *CDKN1A* is imprinted in the brain. In addition, mouse *CDKN1A* contains a unique deletion of 10 nucleotides, whereas the human *CDKN1A* gene contains a deletion of 11 nucleotides.

Principles is available, with others to follow for other disciplines, will likely become less relevant. The new syllabus includes E-4000s as supporting notional learning, with all other core disciplines as optional or non-mandatory. Allowing other disciplines to support the student's learning techniques from their own educational base provides, for example, an easy way for business and management professionals to learn how to introduce new concepts, whereas those using IT may need to learn how to learn, how to think, how to interact, to evaluate the situation. Furthermore, the new framework allows for a much more dynamic approach to the teaching and learning process in particular disciplines. Other disciplines will have a greater role, and will be an integral part of the learning process in a discipline-specific way, rather than as a separate, stand-alone subject.
