## **Sword Behind Shield Budapest Operation:**

**Siege of Budapest 1944-45** Balázs Mihályi, 2022-05-26 A gripping and detailed study of the brutal urban battle for Budapest which saw German and Hungarian troops struggling to halt the joint Soviet Romanian offensive to take the key city on the Danube The 52 day long siege of Budapest witnessed some of the most destructive urban fighting of the war The Transdanubia region was strategically vital to Nazi Germany for its raw materials and industry and because of the bridgehead it allowed into Austria As a result Hitler declared Budapest a fortress city in early December 1944 The battle for the city pitted 90 000 German and Hungarian troops against 170 000 Soviet 2nd and 3rd Ukrainian Fronts and Romanian attackers The operations to take the city ran across several phases from the initial Soviet approach to Budapest commencing in late October 1944 through the encirclement of city first on the Pest side of the Danube and then on the Buda bank and on to the savage urban fighting that began in December 1944 for the Hungarian capital This superbly detailed work analyses the background chronology and consequences of the siege from both a military and political perspective and documents the huge losses in military and civilian casualties and material damage

**Soviet Cavalry Operations During the Second World War** John S. Harrel, 2019-09-30 The author of *The Nisibis War* analyzes the Red Army's usage of horse mounted units along the Soviet German Eastern Front during World War II While the development of tanks had largely led to the replacement of cavalry in most armies by 1939 the Soviets retained a strong mounted arm In the terrain and conditions of the Eastern Front they were able to play an important role denied them elsewhere John Harrel shows how the Soviets developed a doctrine of deep penetration using cavalry formations to strike into the Axis rear disrupting logistics and lines of communication encircling and isolating units Interestingly he also shows that this doctrine did not stem from the native cavalry tradition of the steppe but from the example of the American Civil War The American approach was copied by the Russians in WWI and the Russian Civil War refined by the Soviets in the early stages of World War Two and perfected during the last two years of the war The Soviet experience demonstrated that deep operations cavalry raids against enemy rear echelons set the conditions for victory Although the last horse mounted units disappeared in the 1950s their influence led directly to the formation of the Operational Manoeuvre Groups that ironically faced U S forces in the Cold War An expansive analysis of the technical tactical and operational employment of Soviet cavalry against the Germans and their Axis allies For practitioners who want to understand the history and development the book is a goldmine of overlooked campaigns and actions The book's dense and detailed presentation makes it valuable to operational planners and those interested in the Soviet German war

*ARMOR Magazine* *From the Realm of a Dying Sun* Douglas E. Nash, 2020-10-30 A veritable tour de force of Eastern Front armored combat replete with slashing counterattacks defending to the last man and overcoming odds Mark J Reardon author of *Victory at Mortain* On Christmas Eve 1944 the men of the IV SS Panzerkorps and its two divisions the 3rd SS Panzer Division Totenkopf and the 5th SS Panzer Division Wiking were eagerly anticipating what the holiday would bring including

presents from home and perhaps sharing a bottle of schnapps or wine with their comrades This was not to be for that very evening the corps commander SS Obergruppenführer Herbert Otto Gille received a telephone call notifying him that the 35 000 men of his corps would begin boarding express trains the following day that would take them from the relative quiet of the Vistula Front to the front lines in Hungary hundreds of kilometers away Their mission Relieve Budapest Thus would begin the final round in the saga of the IV SS Panzerkorps In Hungary it would play a key role in the three attempts to raise the siege of that fateful city Threatened as much by their high command as by the forces of the Soviet Union Gille and his troops overcame seemingly insurmountable obstacles in their attempts to rescue the city's garrison only to have their final attack called off at the last minute At that moment they were only a few kilometers away from the objective towards which they had striven for nearly a month After the relief attempt's failure sealed the fate of hundreds of thousands of Hungarians and Germans the only course of action remaining was to dig in and protect the Hungarian oilfields as long as possible **The Sword Behind the Shield** Norbert Számvéber, 2021-04-30 The history of the Hungarian theater of war from late August 1944 to the end of March 1945 is a special chapter of the history of the Eastern Front during World War II The Soviet 2nd and 3rd Ukrainian Fronts had encircled Budapest by Christmas 1944 after very heavy combat However this was just the first phase of a period of intense combat as Adolf Hitler and the German High Command planned the relief of the Hungarian capital The reinforced IV SS Panzerkorps was designated for this task and its units were transferred rapidly from Polish territory to Hungary Two operational plans were swiftly devised by the Germans before they chose the codenamed Konrad This was an armored strike from the Komárom region through the mountains south of the river Danube to the Buda side of the Hungarian capital The first day of Operation Konrad was 1 January 1945 and marked the beginning of a series of fierce clashes that lasted for nearly six weeks a very special period in the history of the Battle for Budapest Both sides employed significant numbers of armored forces in these battles including heavy tanks The German Hungarian forces tried to break through to Budapest three times in three different locations but each time they struck relocated Soviet tank mechanized rifle cavalry artillery and anti tank units from 3rd Ukrainian Front's reserve In January 1945 furious tank battles developed in the eastern part of Transdanubia in Hungary especially in the areas of Bajna Zsombó Zimony Péttend Vereb Dunapentele and Szekesfehervár After the third and strongest German attempt code named Konrad 3 which also failed the Soviet troops launched a counter offensive in late January 1945 to encircle and eliminate the advancing enemy forces But the German armoured Kampfgruppen managed to blunt the Soviet attack which eventually wound down and fragmented mirroring the German offensives before it This work is based mainly on German Soviet and Hungarian archival records e.g. war diaries daily and after action reports etc In addition a number of rare unit histories contemporary private diaries and reliable personal memoirs from generals to enlisted men have also been used by the author The combat actions are extremely detailed and provide a day by day account The author analyzes the command and control systems at operational and tactical levels and

the losses of both sides For a better understanding of the events the book includes many detailed specially commissioned color battle maps      **Sword and Shield** Jeffrey Richelson,1986 Amerikansk bog om det sovjetiske efterretningsv sen KGB og om sikkerhedstjenesten      *Islam* Markus Hattstein,Peter Delius,2004 Este libro trata el desarrollo hist rico de las dinast as y regiones islamicas mostrando la diversidad de su expresi n art stica desde sus muy lejanos comienzos hasta nuestros d as El rico poder creativo del arte y arquitectura islamico es claramente evidente desde el Umayyad de Siria al Mughal de India desde el imperio Otomano a las contempor neas formas de arte      **The Scientist** ,1986      **Numismatic Circular List of Coins, Medals, War Medals, Books, Etc.
