Syria Burning Isis Death Spring:

Syria Burning Charles Glass, 2015 *A Disappearance in Damascus* Deborah Campbell, 2015-09-23 Winner of the Hilary Weston Writers Trust Prize for Nonfiction Winner of the Freedom to Read Award Winner of the Hubert Evans Prize In the midst of an unfolding international crisis renowned journalist Deborah Campbell finds herself swept up in the mysterious disappearance of Ahlam her guide and friend Campbell's frank personal account of a journey through fear and the triumph of friendship and courage is as riveting as it is illuminating The story begins in 2007 when Deborah Campbell travels undercover to Damascus to report on the exodus of Iraqis into Syria following the overthrow of Saddam Hussein There she meets and hires Ahlam a refugee working as a fixer providing Western media with trustworthy information and contacts to help get the news out Ahlam has fled her home in Iraq after being kidnapped while running a humanitarian center She supports her husband and two children while working to set up a makeshift school for displaced girls Strong and charismatic she has become an unofficial leader of the refugee community Campbell is inspired by Ahlam's determination to create something good amid so much suffering and the two women become close friends But one morning Ahlam is seized from her home in front of Campbell's eyes Haunted by the prospect that their work together has led to her friend's arrest Campbell spends the months that follow desperately trying to find Ahlam all the while fearing she could be next The compelling story of two women caught up in the shadowy politics behind today's most searing conflict *A Disappearance in Damascus* reminds us of the courage of those who risk their lives to bring us the world's news *Misunderstanding International Relations* Scott Burchill, 2020-02-05 This book examines the ways in which the study and practice of international relations are misunderstood both by scholars and politicians It begins by examining critical errors in reasoning and argument which determine the way key issues in the field are discussed and explained It then explores a number of case studies which are affected by these errors including the legal status of the modern nation state the Israel Palestine conflict the idea of the Deep State the relationship between the West and radical Islam the impact of moral righteousness on historical understanding and the role of class in modern Western politics **Destroying a Nation** Nikolaos Van Dam, 2017-07-30 Following the Arab Spring Syria descended into civil and sectarian conflict It has since become a fractured warzone which operates as a breeding ground for new terrorist movements including ISIS as well as the root cause of the greatest refugee crisis in modern history In this important book former Special Envoy of the Netherlands to Syria Nikolaos van Dam explains the recent history of Syria covering the growing disenchantment with the Asad regime the chaos of civil war and the fractures which led to an immense amount of destruction in the refined social fabric of what used to be the Syrian nation Through an in depth examination van Dam traces political developments within the Asad regime and the various opposition groups from the Arab Spring to the present day and provides a deeper insight into the conflict and the possibilities and obstacles for reaching a political solution **Rethinking Humanitarian Intervention** Alex J. Bellamy, Stephen McLoughlin, 2018-03-09

Two leading experts in the field re-examine the traditional understanding of humanitarian intervention in this major new text. The recent high profile interventions in Iraq, Libya and Syria show the various international responses to impending or ongoing humanitarian crises, tracking the development from ad hoc military interventions to a more formalised international human rights regime. This evolution has fundamentally changed the way that states and international society think about and respond to atrocities. This textbook charts and explains the transformation, examines the challenges that confront it and asks whether this new politics can withstand the growing crises in international politics. The human protection system is not perfect but attempts to reduce both the incidence and lethality of atrocity crimes. The authors argue that armed intervention alone is rarely sufficient to halt humanitarian atrocities but must be understood within the wider context of peacemaking, including non-violent action. The requirement for states to intervene is codified in international law and this raises important practical, political and moral questions for consistent humanitarian action. Based on the authors' two decades of research, this text is the ideal companion for students of International Relations taking modules on Humanitarian Intervention and the Responsibility to Protect at undergraduate and postgraduate levels.

The Golden Bough: Scapegoat. The Transference of Evil James George Frazer, 1914. Frazer's series which attempted to define the shared elements of religious belief and scientific thought, discussing fertility rites, human sacrifice, the dying god, the scapegoat and many other symbols and practices whose influences had extended into 20th century culture. His thesis is that old religions were fertility cults that revolved around the worship and periodic sacrifice of a sacred king. Frazer proposed that mankind progresses from magic through religious belief to scientific thought.

Syria Burning Charles Glass, 2016-03-22. What are the origins of the Syrian crisis and why did no one do anything to stop it? Since the upsurge of the Arab Spring in 2011, the Syrian civil war has claimed in excess of 200,000 lives with an estimated 8 million Syrians, more than a third of the country's population, forced to flee their homes. Militant Sunni groups such as ISIS have taken control of large swathes of the nation. The impact of this catastrophe is now being felt on the streets of Europe and the United States. Veteran Middle East expert Charles Glass combines reportage, analysis and history to provide an accessible overview of the origins and permutations defining the conflict. He also gives a powerful argument for why the West has failed to get to grips with the consequences of the crisis.
