**Netflixed** Gina Keating, 2012-10-11 Netflix has come a long way since 1997 when two Silicon Valley entrepreneurs Marc Randolph and Reed Hastings decided to start an online DVD store before most people owned a DVD player They were surprised and elated when launch day traffic in April 1998 crashed their server and resulted in 150 sales Today Netflix has more than 25 million subscribers and annual revenues above 3 billion Yet long term success or even survival is still far from guaranteed Journalist Gina Keating recounts the absorbing fast paced drama of the company's turbulent rise to the top and its attempt to invent two new kinds of business First it engaged in a grueling war against video store behemoth Blockbuster transforming movie rental forever Then it jumped into an even bigger battle for online video streaming against Google Hulu Amazon and the big cable companies Netflix ushered in such innovations as DVD rental by mail a patented online queue of upcoming rentals and a recommendation algorithm called Cinematch that proved crucial in its struggle against bigger rivals Yet for all its success Netflix is still a polarizing company Hastings is often heralded as a visionary he was named Business Person of the Year in 2010 by Fortune even as he has been called the nation's worst CEO Netflix also faces disgruntled customers after price increases and other stumbles that could tarnish the brand forever The quest to become the world's portal for premium video on demand will determine nothing less than the future of entertainment and the Internet Drawing on extensive new interviews and her years covering Netflix as a financial and entertainment reporter Keating makes this tale as absorbing as it is important

**Demystifying Creativity** Fawzi Mesmar, 2024-12-24 This book is a study of the psychology neuroscience and philosophy of creativity originality and inspiration viewed from the lens of a seasoned game developer It introduces the concept of creative sobriety a practice that advocates better understanding our own sources of inspiration so that we can intellectually drive our creative voice closer to originality The creative process is an improvised dance between the conscious and the subconscious mind where knowledge experience intuition observation imagination and projection meet in ways that are completely unique to each person Presenting practical and theoretical approaches to originality and game concept generation this book explores the notion of creative sobriety before moving to chapters that blend theory and practice

covering topics such as innovation the creative process auteurship collaboration and creative vision This book will be of great interest to students of game design and creative professionals working within the industry as well as those looking to learn more about the creative process      *Creating a Customer Experience-Centric Startup* Thomas Suwelack,Manuel Stegemann,Feng Xia Ang,2022-02-01 This book explains how startups and brands in general can achieve a high level of customer experience CX in today s dynamic and competitive times A well structured and easy to apply customer experience framework defines customer experience as the start and end point of all business activities The framework steps and tools such as NPS Empathy Map Customer Journey Golden Circle Design Thinking A B Testing are designed to have a maximum impact on successful company building and the customer experience which is key to generate first and repeat buyers that become fans of the company The tools originate from different disciplines such as management design digitisation or psychology as only an interdisciplinary approach enables superior insights for initiating the right customer activities in today s highly competitive times With this book it is possible to look at customer experience systematically and derive your own strategy towards success The following are the main contributions of this book Provides a clear step by step guide to create a customer experience centric company Introduces most impactful tools that managers can use to successfully complete every step of our framework Guides managers through the process of creating a start up which is less about magically coming up with innovative business ideas but rather about applying proven principles in a new context      *EBOOK: Management Information Systems - Global edition* James O'Brien,George Marakas,2011-04-16 The benchmark text for the syllabus organised by technology a week on databases a week on networks a week on systems development etc taught from a managerial perspective O'Brien s Management Information Systems defines technology and then explains how companies use the technology to improve performance Real world cases finalise the explanation      *The IDEATE Method* Dan Cohen,Greg Pool,Heidi Neck,2019-12-19 Generating new ideas that create substantial value is at the very core of entrepreneurship The IDEATE Method is an ideation method empirically proven to help students identify problems develop creative solutions and select the most innovate entrepreneurial idea Authors Daniel Cohen Gregory Pool and Heidi Neck emphasize the importance of deliberate practice and repetition as they guide students through each phase of the method Identify Discover Enhance Anticipate Target and Evaluate Goal directed activities and self reflection questions help students develop their entrepreneurial mindset and skillset      **Innovation and Entrepreneurship** John R. Bessant,Joe Tidd,1991-01-08 Innovation and Entrepreneurship 3rd Edition is an accessible text on innovation and entrepreneurship aimed specifically at undergraduate students studying business and management studies but also those on engineering and science degrees with management courses The text applies key theories and research on innovation and entrepreneurship and then reviews and synthesises those theories and research to apply them in a much broader and contemporary context including the corporate and public services emerging technologies and economies and sustainability and development and

creating and capturing value from innovation and entrepreneurship In this third edition the authors continue to adopt an explicit process model to help organise the material with clear links between innovation and entrepreneurship This text has been designed to be fully integrated with the Innovation Portal at [www.innovationportal.info](http://www.innovationportal.info) which contains an extensive collection of additional resources for both lecturers and students including teaching resources case studies media clips innovation tools seminar and assessment activities and test questions

What is DevOps? Mike Loukides, 2012-06-05 Have we entered the age of NoOps infrastructures Hardly Old style system administrators may be disappearing in the face of automation and cloud computing but operations have become more significant than ever As this O Reilly Radar Report explains we re moving into a more complex arrangement known as DevOps Mike Loukides O Reilly s VP of Content Strategy provides an incisive look into this new world of operations where IT specialists are becoming part of the development team In an environment with thousands of servers these specialists now write the code that maintains the infrastructure Even applications that run in the cloud have to be resilient and fault tolerant need to be monitored and must adjust to huge swings in load That was underscored by Amazon s EBS outage last year From the discussions at O Reilly s Velocity Conference it s evident that many operations specialists are quickly adapting to the DevOps reality But as a whole the industry has just scratched the surface This report tells you why

**Digital Human** Chris Skinner, 2018-04-16 Digital is far reaching and ubiquitous everything you know is about to change We are living in the fourth age of humanity First we became human Then we became civilized The third age saw the creation of commerce Now we are becoming digital Technology has changed the way we communicate trade and transact with repercussions extending far beyond our personal spheres Digital Human is a visionary roadmap for the future a timely guide on how to navigate the world of finance as we create the next generation of humanity It explores the digital evolution s impact and offers clear insights on thriving in this new era Human and business relationships are evolving and existing businesses must undergo substantial transformative changes to compete with the smaller lighter and more agile companies that are able to quickly maneuver to match shifting consumer demands A lack of online presence has become unthinkable as consumer preferences continue to trend heavily toward online business and transactions is your company equipped to thrive in this new era While there is no definitive guide to this new reality this insightful resource provides the starting point and roadmap to digital success in the financial services arena covering aspects such as Digital is not merely a bolting on of technology to produce results faster and cheaper but a complete rethinking of common business practices and notions of efficiency and customer engagement Rethinking business starts with the customer new business models are constructed entirely around this single guiding principle A digital business model is all about connectivity with front office apps tied in to both back office analytics and marketplaces with many players and segments Businesses must open their operations to this marketplace of players through APIs necessitating a conversion of many core systems Central business and technology systems must change to adapt to new market entrants and new technologies that

range from AI for back office analytics to Distributed Ledger Technology DLT for global operations Leaders must rethink their businesses to be fit for the future digital age and this comprehensive resource shines a spotlight on the key elements to this transformation     Science ,2011     **Technology Review** ,2004     **The Jonesreport Plus** ,2008     Newsweek ,2006
