Hanson,2004 Continues a tradition of combining top notch research with innovative pedagogy bringing students unsurpassed content accessible writing and comprehensive comparative analysis of the 50 states Twenty authors actively engaged in the study of state politics and government provide through coverage of the key topics including foundational chapters on intergovernmental relations and the legislative process as well as new chapters on the initiative process and specific policy areas such as education and taxes **Entrepreneurship** Organisation for Economic Co-operation and Development,2004 Entrepreneurship and urban regeneration policy have traditionally been treated as separate fields This volume focuses on the links between the two examining how policy can help regenerate inner cities and other areas of urban distress by stimulating entrepreneurship It sets out recent policy developments in North American and European cities in financing entrepreneurship providing advice training and mentoring to entrepreneurs using special zones and area based policies to grow new and small firms and supporting social enterprises Publisher s description
