The PayPal Wars Eric M. Jackson, 2023-07-18 Peter Thiel Elon Musk and the rest of the PayPal Mafia are now household names who've reshaped technology, automobiles, space travel and politics. But two decades ago they were unsung entrepreneurs attempting to launch a Silicon Valley startup against overwhelming odds. That improbable journey started in the shadow of Stanford University when Thiel met Max Levchin, a Ukrainian engineer who recently moved to California. Years before anyone had heard of Bitcoin, the two set out to build an online payment service that could reduce government control over currency by empowering people around the globe. But after their startup PayPal survived the dot com crash only to find itself besieged by an unimaginable series of challenges that lofty dream threatened to become a nightmare. Former insider Eric M. Jackson's telling of PayPal's origins is an eyewitness account to technology history as well as an engrossing story of human struggle and perseverance against overwhelming odds. PayPal went from unknown startup to online powerhouse in just three years, but for the company's team it was not an easy journey. The entrepreneurs that joined together to overhaul world currency markets first had to face one of the greatest series of trials ever thrown at a startup before becoming part of Silicon Valley lore. Jackson's lively blow-by-blow account of PayPal's death-defying beginnings and ferocious battles offers a detailed perspective that only an eyewitness could provide. Read *The PayPal Wars* and you'll learn how Elon Musk joined with Peter Thiel and how the two future titans would soon square off to control the company. Organized crime attempted to ransack PayPal but the company fought back. Government bureaucrats and regulators ferociously tried to shut down the upstart payments service. Turmoil pushed PayPal to the brink of insolvency before Thiel and his team turned the business around. Our clashes with the credit card associations, the banking lobby, state regulators, foreign Mafioso and litigation happy lawyers significantly increased as the company's profile grew, writes Jackson, adding that the initial public offering that was meant to strengthen PayPal with an infusion of cash ironically attracted a rogue's gallery of foes instead. The modern business environment Jackson concludes turned out to be more hostile than even our fiercest competitor. This somber warning that regulators, lawyers and lobbyists threaten to undermine American entrepreneurship makes *The PayPal Wars* a timely read for every concerned citizen.

The Cure For Burnout Emily Ballesteros, 2024-02-15 Is dread the first thing you feel when you wake up in the morning? Are you working in the evenings and on weekends to catch up? Cowboy and conservationist Carson Granger returns to Three River Ranch determined to transform his embattled family home into a mustang sanctuary. But his late father, controlling even from the grave, had different ideas and left an iron-clad will to enforce them. Aurora McAllister's empathetic ability and her therapy dog work wonders with troubled children. But when Rory's personal life falls apart, she takes her broken heart and flees. Three River Ranch is the perfect place to rest, heal, and start over. Unfortunately, no one told her about the estranged son or the grim Granger history. The man's energy is raw and full of pain, but beneath that there's a kindness that attracts her. Carson wants Rory gone. Her relentless optimism and her mop of a dog are messing up all his plans. Then he sees her with the wild mustang mare he's rehabilitating. The woman has skills. Maybe Rory is the key he didn't realize he was looking for. But Rory also has secrets, and when it comes to women, the Granger men are cursed. His dreams for her future. Even he's not that cold. Then Rory makes him an offer he can't refuse.

Homo Deus Yuval Noah Harari, 2017-02-21 Official U.S. edition with full color illustrations throughout. **NEW YORK TIMES BESTSELLER** Yuval Noah Harari, author of the critically acclaimed *New York Times* bestseller and international phenomenon *Sapiens*, returns with an equally original, compelling, and provocative book, turning his focus toward humanity's future and our quest to upgrade humans into gods. Over the past century, humankind has managed to do the impossible and rein in famine, plague, and war. This may seem hard to accept, but as Harari explains in his trademark style, thorough yet riveting, famine, plague, and war have been transformed from incomprehensible and uncontrollable forces of nature into manageable challenges. For the first time ever, more people die from eating too much than from eating too little; more people die from old age than from infectious diseases; and more people commit suicide than are killed by soldiers, terrorists, and criminals put together. The average American is a thousand times more likely to die from binging at McDonald's than from being blown up by Al Qaeda. What then will replace famine, plague, and war at the top of the human agenda? As the self-made gods of planet earth, what destinies will we set ourselves and which quests will we undertake? *Homo Deus* explores the projects, dreams, and nightmares that will shape the twenty-first century from overcoming death to creating artificial life. It asks the fundamental questions: Where do we go from here? And how will we protect this fragile world?

from our own destructive powers This is the next stage of evolution This is Homo Deus With the same insight and clarity that made Sapiens an international hit and a New York Times bestseller Harari maps out our future **What Information Do Data Brokers Have on Consumers, and how Do They Use It?** United States.
