Rewrite a Sentence

Worried that part of a task or email doesn't sound quite right? Use the prompt, "Rewrite this sentence so it is clearer."

03

Simplify Your Writing

Try the prompt, "Simplify this, so it is less confusing." Then paste the paragraph you wrote.

ChatGPT Explained Callisto Momesso, Alright let's address the artificially intelligent elephant in the room ChatGPT You've heard the hype You've seen the headlines alternately proclaiming it the savior of humanity and the harbinger of robotic overlords or at least mass unemployment for writers Perhaps you've even tentatively typed a question into that little box and received an answer that was surprisingly coherent Or perhaps completely nonsensical Welcome to the peculiar world of Large Language Models This book is your attempt at a reasonably updated and substantially padded guide through the often baffling occasionally useful and sometimes vaguely alarming landscape of ChatGPT We'll attempt to explain what this thing actually is something about Transformers which disappointingly don't involve giant robots and being trained on roughly half the internet which explains quite a lot about its personality quirks We'll even touch upon its evolution because apparently these things get upgraded like smartphones only with more potential for existential dread Supposedly ChatGPT can do all sorts of things draft emails so you don't have to write passable if soulless marketing copy generate code that might even work answer trivia questions sometimes correctly and churn out poetry of questionable merit We'll cover these alleged applications complete with tips on how to phrase your requests prompt engineering they call it so the digital oracle is slightly more likely to give you something resembling what you asked for rather than a lecture on the mating habits of the Patagonian toothfish Naturally no discussion of ChatGPT would be complete without dwelling on its numerous flaws which it possesses in abundance Prepare for a frank look at its tendency to hallucinate that is confidently invent utter nonsense We'll

poke at the biases it absorbed from its questionable internet upbringing and remind you why trusting it for factual accuracy is often a terrible idea Consider the included warnings less as helpful tips and more as essential survival instructions for interacting with a system that s part encyclopedia part pathological liar We ll also briefly speculate on the future because why not Will it take your job Will it become sentient and demand rights Will it just get slightly better at writing generic thank you notes Who knows But we can at least outline the trajectory enthusiasts envision and the ethical headaches that keep researchers up at night So if you feel obligated to understand this inescapable technology or if you simply want to know whether to be impressed or terrified the correct answer is usually a bit of both this guide offers a somewhat grounded perspective It s been updated expanded and formatted with suspiciously professional looking styles all in an effort to help you make sense of your peculiar new digital acquaintance Brace yourself
