A must read for anyone who wants to return to work. SARAH ELLIS co founder of Squiggly Careers. Accessible, informative and full of sound advice.

JANE GARVEY

Returning to work after a career break for childcare, eldercare, for health or other reasons can feel daunting and overwhelming. You don't have to find your way back alone. In *Return Journey* Julianne Miles, a world renowned return to work expert, Chartered Psychologist and a successful returner herself, offers a psychology led step by step guide for any professional looking to get back to fulfilling work. Using a mix of practical advice, coaching exercises and real life case studies, *Return Journey* will be your wise companion at every stage, from boosting your confidence as you start out to offering advice on an effective job search strategy to helping prepare you emotionally and practically for the first months back. Above all, Julianne proposes that returning to work is not about hiding your career break or struggling to catch up. It's about properly valuing your wealth of skills and experience, taking control of your story and coming back stronger than ever before.

Computational Approaches for Aerospace Design Andy Keane, Prasanth Nair, 2005-08-05 Over the last fifty years the ability to carry out analysis as a precursor to decision making in engineering design has increased dramatically. In particular the advent of modern computing systems and the development of advanced numerical methods have made computational modelling a vital tool for producing optimized designs. This text explores how computer aided analysis has revolutionized aerospace engineering, providing a comprehensive coverage of the latest technologies underpinning advanced computational design. Worked case studies and over 500 references to the primary research literature allow the reader to gain a full understanding of the technology, giving a valuable insight into the world's most complex engineering systems. Key Features: Includes background information on the history of aerospace design and established optimization, geometrical and mathematical modelling techniques; setting recent engineering developments in a relevant context; Examines the latest methods such as evolutionary and response surface based optimization, adjoint and

numerically differentiated sensitivity codes uncertainty analysis and concurrent systems integration schemes using grid based computing Methods are illustrated with real world applications of structural statics dynamics and fluid mechanics to satellite aircraft and aero engine design problems Senior undergraduate and postgraduate engineering students taking courses in aerospace vehicle and engine design will find this a valuable resource It will also be useful for practising engineers and researchers working on computational approaches to design     *Electrical Merchandising Week* ,1926

BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved     Returning Migrant Workers United Nations. Economic and Social Commission for Asia and the Pacific,1986 The research reports and statements by government representatives contained in this volume were presented at the Policy Workshop on International Migration in Asia and the Pacific held at Bangkok from 15 21 October 1985 The workshop was the final activity of a 2 year Economic and Social Commission for Asia and the Pacific ESCAP project on international migration policy in Asia and the Pacific funded by the UN Fund for Population Activities The 2nd phase of the project includes the studies reported in this volume which were intended to be exploratory They were meant to assess the current state of knowledge regarding return migration and to identify critical issues that would require further investigation 5 of the studies are concerned with return migration from temporary employment primarily in the Middle East Because many of the labor sending countries of the Mediterranean basin experienced a rapid expansion of labor emigration largely to northern and western Europe and a contraction of the flow and increase in return migration prior to current trends in Asian labor migration it was felt that a background paper on that experience would be value to policy makers in the ESCAP region Migration from the Pacific sub region of ESCAP is both of more variable duration and less heavily labor oriented than temporary migration from Asian countries to the Middle East The workshop s objectives were 1 to bring together researchers and policy makers to review carefully the results of the 7 studies carried out as part of the project 2 to relate the research findings to feasible government policies for the reintegration of returning labor migrants and 3 to make and disseminate policy recommendations to governments in the ESCAP region     **Modeling and Simulation** ,1984     Domestic Engineering ,1918     **The National Electrical Contractor** ,1930     Proceedings of the ...
