Innovation Management in the Intelligent World Tugrul U. Daim, Dirk Meissner, 2020-12-17 This book introduces readers to state of the art cases and tools for managing innovation in today's rapidly changing business environment. It provides a wealth of methodological knowhow and guidance on practical applications as well as case studies that reveal various challenges in technology and innovation management. Written by a mix of academic scholars and practitioners, the respective chapters present tools and approaches for the early detection of emerging fields of innovation as well as relevant processes and resources. The contributing authors hail from leading innovative companies including Google, Amazon, Intel, Daimler, Benz, and NASA.

Smart Frederic Martel, 2018-07-05 Digitization is accelerating globalization tenfold. Social networks have gone mobile, telephone, television, and towns have gone smart. How did China manage to create clones of Google, Facebook, and YouTube and build its own censored version of the Internet? How do Arab countries use social networks for their revolutions? Why is there no minister for communications in the US and why does no one regulate the Internet there? From Silicon Valley to Tokyo, from South Africa to southern India and all the way to Cuba and Gaza, this unprecedented investigation in the field covers the whole battle of the Internet and its future. Drawing on hundreds of interviews in about fifty countries, Frederic Martel examines the different Internets on five continents. In so doing, he reveals that we are moving not only into a connected, globalized world but also a territorialized one. Smart shows that the Internet has never been truly global and that it will become increasingly local.
