*The Basic Teachings of the Great Philosophers* S.E. Frost,2022-01-22 This book brings together the answers that the great philosophers of all times have offered to the problems which we think about today They have toiled to form an answer that seems to them satisfactory The book has brought it to you Our method is to bring together what each philosopher has written on each of these problems as briefly and concisely as possible This is done so that you busy as you are do not have to read long discourses on philosophy to discover that which will help you in your thought By reading any one of the chapters in this book you can get a clear picture of what the philosophers down through the ages have said about one of your real problems Although each chapter is a unit to itself and can be read without reference to the other chapters it is advisable for the reader to begin with the first chapter and go through the book This will give you a wide view of the great philosophers and will help you to see each problem or group of problems in relation to the other problems and groups of problems in the book At the end of the book you will find Biographical Notes concerning the philosophers whom you meet in the pages of the book This should be used as a quick reference when you want to know the exact dates during which the philosopher lived or other pertinent facts about him Contents 1 The Nature of the Universe 2 Man's Place in the Universe 3 What Is Good and What Is Evil 4 The Nature of God 5 Fate versus Freedom 6 The Scrutiny of Immortality 7 Man and the State 8 Man and Education 9 Mind and Matter 10 Ideas and thinking

**Confessions** Jean-Jacques Rousseau,1992-05-01 Rousseau's ideas have influenced almost every major political development of the last two hundred years and are crucial to an understanding of phenomena as diverse as the French Revolution modern educational theory and the contemporary environmental movement This is reason enough to draw attention to his startlingly alive autobiography But the Confessions is also among the greatest self portraits in world literature which suggests even more than the impact of Rousseau's thought the extent to which the very high opinion he had of himself was ultimately justified Copyright Libri GmbH All rights reserved
