Martyn Hudson

The Social Machine The Social Machine:

The Social Machine Judith Donath, 2014-05-23 New ways to design spaces for online interaction and how they will change society Computers were first conceived as thinking machines but in the twenty first century they have become social machines online places where people meet friends play games and collaborate on projects In this book Judith Donath argues persuasively that for social media to become truly sociable media we must design interfaces that reflect how we understand and respond to the social world People and their actions are still harder to perceive online than face to face interfaces are clunky and we have less sense of other people's character and intentions where they congregate and what they do Donath presents new approaches to creating interfaces for social interaction She addresses such topics as visualizing social landscapes conversations and networks depicting identity with knowledge markers and interaction history delineating public and private space and bringing the online world's open sociability into the physical world Donath asks fundamental questions about how we want to live online and offers thought provoking designs that explore radically new ways of interacting and communicating

The Theory and Practice of Social Machines Nigel Shadbolt, Kieron O'Hara, David De Roure, Wendy Hall, 2019-02-14 Social machines are a type of network connected by interactive digital devices made possible by the ubiquitous adoption of technologies such as the Internet the smartphone social media and the read write World Wide Web connecting people at scale to document situations cooperate on tasks exchange information or even simply to play Existing social processes may be scaled up and new social processes enabled to solve problems augment reality create new sources of value and disrupt existing practice This book considers what talents one would need to understand or build a social machine describes the state of the art and speculates on the future from the perspective of the EPSRC project SOCIAM The Theory and Practice of Social Machines The aim is to develop a set of tools and techniques for investigating constructing and facilitating social machines to enable us to narrow down pragmatically what is becoming a wide space by asking when will it be valuable to use these methods on a sociotechnical system The systems for which the use of these methods adds value are social machines in which there is rich person to person communication and where a large proportion of the machine's behaviour is constituted by human interaction

Social Collective Intelligence Daniele Miorandi, Vincenzo Maltese, Michael Rovatsos, Anton Nijholt, James Stewart, 2014-09-17 The book focuses on Social Collective Intelligence a term used to denote a class of socio technical systems that combine in a coordinated way the strengths of humans machines and collectives in terms of competences knowledge and problem solving capabilities with the communication computing and storage capabilities of advanced ICT Social Collective Intelligence opens a number of challenges for researchers in both computer science and social sciences at the same time it provides an innovative approach to solve challenges in diverse application domains ranging from health to education and organization of work The book will provide a cohesive and holistic treatment of Social Collective Intelligence including challenges emerging in various disciplines computer science sociology

ethics and opportunities for innovating in various application areas By going through the book the reader will gauge insight and knowledge into the challenges and opportunities provided by this new exciting field of investigation Benefits for scientists will be in terms of accessing a comprehensive treatment of the open research challenges in a multidisciplinary perspective Benefits for practitioners and applied researchers will be in terms of access to novel approaches to tackle relevant problems in their field Benefits for policy makers and public bodies representatives will be in terms of understanding how technological advances can support them in supporting the progress of society and economy

Ghosts, Landscapes and Social Memory Martyn Hudson, 2017-06-26 This book is a groundbreaking attempt to rethink the landscapes of the social world and historical practice by theorising social haunting the ways in which the social forms figures phantasms and ghosts of the past become present to us time and time again Examining the relationship between historical practices such as archaeology and archival work in order to think about how the social landscape is reinvented with reference to the ghosts of the past the author explores the literary and historical status and accounts of the ghost not for what they might tell us about these figures but for their significance for our constantly re invented re vivified re ghosted social world With chapters on haunted houses and castles slave ghosts the haunting airs of music the prehistoric origin of spirits Marxist spectres Freudian revenants and the ghosts in the machine *Ghosts Landscapes and Social Memory* adopts multi disciplinary methods for understanding the past the dead and social ghosts and the landscapes they appear in A sociology of haunting that illustrates how social landscapes have their genesis and perpetuation in haunting and the past this volume will appeal to sociologists and social theorists with interests in memory haunting and culture

The Thinking Machine Charles Judson Herrick, 1929 This is a book about the natural history of human nature It is not a book about philosophy for philosophers It is a plain and straightforward statement for ordinary people of what another very ordinary sort of man who has considerable experience with the mechanisms of human life and how they work thinks about it all We all want to understand human nature better because it is our nature The better we understand it the more likely we are to get along with ourselves our neighbors and our surroundings in general We want to make life more worth while to get as much out of it as we can and to put as much into it as we can to make a better living and to have as much fun doing it as possible We need to know how we live what the apparatus of life is and how it works in order to make a better job of it Preface
