Resource Management in Rice Systems: Nutrients V. Balasubramanian, J.K. Ladha, G.L.

Denning, 2012-12-06 Rice is the major staple food in Asia and food security means rice security for most Asians. By the year 2025 we need to produce about 60% more rice than we do today to meet the growing demand. Efficient use of inputs is vital to safely produce the additional food from limited resources with minimal impact on the environment. This book reviews emerging knowledge intensive technologies and decision aids for improved nutrient management in rice technology adoption constraints at the farm level and innovative approaches for field evaluation and promotion of new technologies to farmers. It is highly useful to rice scientists and development workers, students of agronomy, soil science and plant nutrition and crop consultants and extension workers in rice all over the world.

South Jersey Farming

Cheryl L. Baisden, 2006 By 1876 the year Abraham Browning christened New Jersey the Garden State. South Jersey was already renowned as a leader in the farming industry, supplying the region with everything from apples to zucchini. It was here that Dr. T. B. Welch produced the grape juice that remains a favorite today. Elizabeth White first cultivated the blueberry. Seabrook Farms became the birthplace of frozen vegetables. Campbell Soup and others canned vegetable-fueled foods and a colonel transformed the tomato's reputation from deadly to delectable. South Jersey Farming pays tribute to this rich agricultural past.

Theory and Application of the Interest Rate Eli Schwartz, 1993-03-17 This work provides an integration of the financial and economic aspects of the interest rate. It depicts how the interest rate operates in the macro economy to set the supply and the allocation of capital and how it functions on the micro economic level to optimize capital decision making. It describes the function of the financial markets in setting the supply and cost of funds to various users of estimating a reasonable cost of capital for operational purposes of business firms and public sector authorities and the application of discounting and present value methods to financial and investment decisions and strategies. This work is unique in presenting seamless coverage of the function of the interest rate across varying markets. It will be of interest to scholars and students in economics and finance.
