AndrŽs PŽrez de Ribas,1999 Considered by historian Herbert E Bolton to be one of the greatest books ever written in the West Andr s P rez de Ribas s history of the Jesuit missions provides unusual insight into Spanish and Indian relations during the colonial period in Northern New Spain First published in Madrid in 1645 it traces the history of the missions from 1591 to 1643 and includes letters from Jesuit annual reports and other correspondence much of which has never been found or cataloged in historical archives Daniel T Reff Maureen Ahern and Richard K Danford have now prepared the first complete scholarly and fully annotated edition of this important work in English P rez de Ribas was the first permanent missionary to the Ahome Zuaque and Yaqui Indians After fifteen years on the mission frontier he was recalled to Mexico City where he held various posts including Jesuit Provincial Addressed to novitiates ignorant of the challenges they would face in the field his Historia was a virtual textbook on missionary work in the New World Also written to encourage ongoing support of the Jesuit missions it reflected the author s deep grasp of what rhetorically soothed and moved Church and Crown officials Perhaps of greatest interest to the modern reader are P rez de Ribas s often detailed comments on indigenous beliefs and practices These firsthand observations provide a rich resource of ethnographic and historical data concerning everything from native subsistence settlement patterns and myths to the dynamics of Jesuit Indian relations The many cases of conversion that P rez de Ribas describes are especially rich in ethnographic data clarifying the values and beliefs from which the Indians were rescued History of the Triumphs is a primary document of great importance made more valuable here by an exceptionally fluid translation and painstaking annotations It will be a standard reference for all engaged in research on New Spain and a captivating read for anyone interested in this chapter of American history *The History of Little Faith ... philosopher and theologian Gerasimus used the experiences of those of the past to facilitate his own response to critics. However, two important differences separated him from earlier apologists which demand his own insight and innovation. First, the new language of intellectual discourse was Arabic which was not accommodating for expressing traditional Christian doctrine and required the development of a vocabulary out of terms already heavily influenced by the Qur'anic worldview. Second, the new religion challenging Christianity was one of absolute monotheism which shared neither a common scriptural nor cultural heritage and rejected the very possibility of a Trinity and Incarnation. Although a common theme in early Christian apologetics was the refutation of Judaism, the debate generally centered on the interpretation of the Old Testament showing that Jesus was indeed the Messiah. The Qur'an while acknowledging Jesus as the Messiah explicitly rejects the Christian doctrines of the Incarnation and the Trinity and presents itself as the revelation which supersedes all previous revelation. Thus, although Christians and Muslims share certain themes and figures such as Creation and the Last Judgement, Abraham, Moses, Mary, and Jesus, Muslims refuse evidence contrary to the Qur'an leaving Christians without recourse to traditional scripture-based arguments. Gerasimus, as a Christian apologist and *mutakallim*, accepted these challenges and began the process of explaining and translating his faith in the new milieu to make it coherent and rational. In his treatise, Gerasimus reveals himself to be a full participant in this important period of intellectual history; he sets down the basic points of controversy and outlines a response to them in a form that would be an excellent introduction to Christian theology written for the Muslim environment. Gerasimus was also a *mutakallim* in his own right, the Christian counterpart to those Islamic scholars who sought to defend their faith through rational arguments. In an effort to argue the legitimacy of Christianity, Gerasimus attempts to create a common language that influences the meaning of terminology and concepts of intellectual development in Muslim-Christian debates. Such language would set the stage for centuries to come. This is certainly his greatest contribution.
