The Dictators Learning Curve Inside The Global Battle For Democracy:

The Dictator's Learning Curve William J. Dobson, 2013-03-12 In this riveting anatomy of authoritarianism acclaimed journalist William Dobson takes us inside the battle between dictators and those who would challenge their rule Recent history has seen an incredible moment in the war between dictators and democracy with waves of protests sweeping Syria and Yemen and despots falling in Egypt Tunisia and Libya But the Arab Spring is only the latest front in a global battle between freedom and repression a battle that until recently dictators have been winning hands down The problem is that today's authoritarians are not like the frozen in time ready to crack regimes of Burma and North Korea They are ever morphing technologically savvy and internationally connected and have replaced more brutal forms of intimidation with subtle coercion The Dictator's Learning Curve explains this historic moment and provides crucial insight into the fight for democracy

The Dictator's Learning Curve William J Dobson, 2013-03-07 In this riveting anatomy of the new face of authoritarianism acclaimed journalist William Dobson takes us inside the battle between modern dictators and those who challenge their rule From Tahrir Square to the Kremlin we have witnessed an incredible moment in the war between dictators and democracy The problem is that today's authoritarians are not like the frozen in time ready to crack regime of North Korea They are ever morphing technologically savvy and have replaced more brutal forms of intimidation with subtle coercion But as dictators have become more nimble so have the inspiring people who oppose their rule The Dictator's Learning Curve explains this historic moment and offers hope for the future of freedom Says something really fresh about the world we live in Sunday Telegraph Timely authoritative and as readable as a novel Prospect

Autocracy 2.0 Jennifer Lind, 2025-11-15 In *Autocracy 2.0* Jennifer Lind reveals how China's leaders defied expectations and propelled the country to innovation superpower status and what that means for the balance of power and global struggle between democracy and authoritarianism In 2008 the world watched in awe as 2,008 men pounded Fou drums in unison at the Beijing Olympics opening ceremony a spectacle that heralded China's arrival as a global powerhouse Yet even as China's economy skyrocketed skeptics scoffed at its ability to lead in tech arguing that its authoritarian institutions smother true innovation Lind dismantles this assumption showing that China has not just kept pace it has in fact surged ahead Coupling hard data with razor sharp analysis Lind shows that China's ascent was fueled by what she calls smart authoritarianism a model of governance in which autocratic leaders temper tight political control with inclusive economic measures By balancing proinnovation policies with tools of repression China's leaders have obtained political control and economic growth These smart authoritarians Lind observes are not the brass knuckled dictators of the past they are their polished Savile Row clad progeny and they are found not only in China but also in authoritarian regimes worldwide Compelling and incisive *Autocracy 2.0* is a must read for anyone seeking to understand China's meteoric rise and how today's autocrats are reshaping the technological frontier governance and the global balance of power

"Gamers," Multiculturalists, and the Great

Coming Apart Alfred Claassen, 2021-02-19 Gamers Multiculturalists and the Great Coming Apart is the first book to pull together the central features of the American society character and history of the global era and its immediate aftermath into a single powerful comprehensive and coherent picture. Seamlessly interdisciplinary it looks at all facets of recent American society and history as reflecting first the global liberal paradigm that reigned from 1965 until 2016 and then the incipient paradigms that have competed during the years of crisis since. It is the first book to pull together the central features of American society character and history since 1965 into a single comprehensive and coherent picture that dissents from key aspects of the long dominant paradigm. Gamers Multiculturalists and the Great Coming Apart describes and extensively analyzes the gamers, the fascinating new upper class that has risen to dominance in this country as in most others during the last half century. It also analyzes the character and circumstances of the middle class, working class and underclass, laying bare the profound many-sided conflict between the gamers and the middle and working classes. It also examines the

Authoritarianism Erica Frantz, 2018-08-01 Despite the spread of democratization following the Cold War's end, all signs indicate that we are living through an era of resurgent authoritarianism. Around 40 percent of the world's people live under some form of authoritarian rule, and authoritarian regimes govern about a third of the world's countries. In *Authoritarianism: What Everyone Needs to Know*, Erica Frantz guides us through today's authoritarian wave, explaining how it came to be and what its features are. She also looks at authoritarians themselves, focusing in particular on the techniques they use to take power, the strategies they use to survive, and how they fall. Understanding how politics works in authoritarian regimes and recognizing the factors that either give rise to them or trigger their downfall is ever more important given current global trends, and this book paves the way for such an understanding. An essential primer on the topic, *Authoritarianism* provides a clear and penetrating overview of one of the most important and worrying developments in contemporary world politics.

The New Censorship Joel Simon, 2014-11-11 An examination of how the media is under fire and how to safeguard journalists and the information they seek to share with the public. Journalists are being imprisoned and killed in record numbers. Online surveillance is annihilating privacy, and the Internet can be brought under government control at any time. Joel Simon, the executive director of the Committee to Protect Journalists, warns that we can no longer assume that our global information ecosystem is stable, protected, and robust. Journalists are increasingly vulnerable to attack by authoritarian governments, militants, criminals, and terrorists who all seek to use technology, political pressure, and violence to set the global information agenda. Reporting from Pakistan, Russia, Turkey, Egypt, and Mexico among other hotspots, Simon finds journalists under threat from all sides. The result is a growing crisis in information, a shortage of the news we need to make sense of our globalized world and fight human rights abuses, manage conflict, and promote accountability. Drawing on his experience defending journalists on the front lines, he calls on global citizens, U.S. policy makers, international law advocates, and human rights groups to create a global freedom of expression agenda tied to trade, climate, and other major negotiations. He proposes

ten key priorities including combating the murder of journalists ending censorship and developing a global free expression charter to challenge the criminal and corrupt forces that seek to manipulate the world's news. Wise and insightful Simon offers hope to all who care about maintaining the free flow of information in a world full of would-be censors. Ann Cooper, Columbia Journalism School. *Rethinking the Social*, 2024-10-07. The book casts a spotlight on Central and Eastern European societies making their experiences visible and meaningful within the postcolonial discourse. The modernization theory overlooks important aspects of postsocialist transformation. Consequently, sociological knowledge has drifted apart from the social production of knowledge and sociology has become alarmingly irrelevant to the people it studies. Therefore, the book departs from preconceived notions of normal and modern to foreground the importance of actual social experience. After all, Central and Eastern Europe is a valuable yet underestimated social laboratory. Thus, the contributors experiment with new theoretical and methodological approaches to bridge the gap between social research and real people. Contributors are Izabella Bukraba, Rylska, Jacek Burski, Grzegorz Ekiert, Kaja Gadowska, Anna Giza, Ma gorzata G owacka, Grajper, Micha Kaczmarczyk, Krzysztof T Konecki, Miros awa Marody, Adam Mrozowicki, Joanna Wawrzyniak, Anne White, Renata W och, Tomasz Zarycki, and Marek Zirk Sadowski. *Judicial Responsibility and Coups d'État*, Kriangsak Kittichaisaree, 2023-02-10. This book examines the responsibility of judges of domestic courts following unconstitutional usurpation of power of government coups d'état. It explores judges' liability for failing to discharge their judicial duty independently and impartially and the criminality of usurpers and their accomplices and collaborators for their violation of fundamental rights and freedoms or commission of crimes of international concern. Written by a highly regarded non-Western author, the book is coherent and meticulously researched, covering an approach to coups in an insightful and fascinating fashion. It includes a sophisticated and thorough analysis of the relevant comparative jurisprudence of domestic and international courts with concrete examples of the best practices among decisions of domestic courts in countries that have experienced coups d'état. With an increasing global interest in the phenomenon of coups, democratic backsliding, and the place and role of the judiciary as the only hope to rein in acts of unconstitutional usurpation of power, the book will be essential reading for members of the legal profession, those cherishing democracy, as well as students and researchers in constitutional law, law and political science, public international law, international human rights law, international criminal law, regime changes, transitional justice, and international organizations. *History's 9 Most Insane Rulers*, Scott Rank, 2020-05-12. Madness and Power: Can the insane rule? Can insanity be a leadership quality? Scott Rank says yes, well, sometimes. In this fascinating look at nine of history's most notorious rulers, from the Roman emperor Caligula to the North Korean Communist dictator Kim Jong-il, Rank paints intimate portraits of these deeply flawed but powerful men, examining the role that madness played in their lives, the repercussions of their madness on history, and what their madness can tell us about the times in which they lived. In *History's 9 Most Insane Rulers*, you will meet King Charles VI of France, who thought he was made of glass; Sultan Ibrahim I, who was

driven mad by the sadistic succession battles of the Ottoman Empire Caligula who built temples to himself and whose reign highlighted the lethal tensions between the power of the new Imperial Rome and the prerogatives of the old Roman Republic The Russian tsar who became known as Ivan the Terrible King George III of Britain who not only lost his American colonies but lost his mind as well Bavaria's Mad King Ludwig II who left the world richer for his fabulous fairy tale castles and his patronage of the composer Richard Wagner Insane rulers did not die off with the last of the mad monarchs who inherited their power Rank also examines the rise to power of crazed modern rulers such as Idi Amin who began as a lowly army cook and rose to the presidency of Uganda and Saparmurat Niyazov who ruled Turkmenistan and promoted a bizarre cult of personality around himself Both entertaining and illuminating History's 9 Most Insane Rulers is a must read for anyone interested in the role insanity has played in history **European Populism and Human Rights** Jure Vidmar, 2020-02-03

This volume focuses on the recent challenge posed by right wing populism to democratic consolidation in Europe and particularly explores the legal dimensions of this challenge Part One attempts to define political populism and explains why it poses a challenge to democratic political order in Europe Part Two examines the theoretical underpinnings of the populist challenge to human rights and democracy in Europe Part Three applies this theory to concrete examples and considers case studies including an old EU Member State two newer EU Member States and a non EU Member State party to the ECHR The aim is to examine the consequences of the present populist challenge in Europe that has been marked with excessively nationalist policies in some states party to the ECHR It is explored how the Convention rights have been undermined but also what the limitations are of the ECHR acting as a safety net for democratic consolidation in Europe **Non-Democratic Politics** Xavier Márquez, 2016-09-29 Since the 19th century there has been a slow transformation in the nature of the norms that regulate political competition and the uses of state power Monarchies whose legitimating principles appealed to divine sanction have steadily given way to republican regimes normatively grounded in appeals to the people Ideals of liberty equality and solidarity have gained ground relative to ideals of hierarchy and dependence Yet while in some ways the world is more democratic now than ever new forms of non democracy and new justifications for it have emerged Drawing on a wide variety of examples and data from around the world this important new text provides a global account of the history and theory of non democratic government over the past two centuries Grounded in the most recent social science research it shows how non democratic regimes have ruled through many different institutions from parties to armies to dynastic families and examines the economic and social performance of these different types of non democracy as well as the development of justifications for them It discusses how over the last century personal dictatorships and totalitarian regimes have given way to hybrid regimes combining electoral competition with various restrictions on the ability of parties and other social groups to effectively compete for control of the state The book assesses the processes through which non democratic regimes change and sometimes democratize from cultural change and economic development to collective action and revolution

Offering a cutting edge analysis of the complex issue of non democratic politics this is the perfect introduction for students with an interest in how authoritarianism exerts itself in the modern age **The Literary Review** ,2012 **USA Today Index** ,1995 *Defending Democracy in an Age of Sharp Power* William J. Dobson,Tarek Masoud,Christopher Walker,2023-07-25 Explores how authoritarian regimes are deploying sharp power to undermine democracies from within by weaponizing universities institutions media technology and entertainment industries The world s dictators are no longer content with shoring up control over their own populations they are now exploiting the openness of the free world to spread disinformation sow discord and suppress dissent In *Defending Democracy in an Age of Sharp Power* editors William J Dobson Tarek Masoud and Christopher Walker bring together leading analysts to explain how the world s authoritarians are attempting to erode the pillars of democratic societies and what we can do about it Popular media entertainment industries universities the tech world and even critical political institutions are being manipulated by dictators who advance their regimes interests by weakening democracies from within Autocrats use of sharp power constitutes one of the gravest threats to liberal representative government today The optimistic early twenty first century narrative of how globalization the spread of the internet and the rise of social media would lead to liberalization everywhere is now giving way to the realization that these same forces provide inroads to those wishing to snuff out democracy at the source And while autocrats can do much to wall their societies off from democratic and liberal influences free societies have not yet fully grasped how they can resist the threat of sharp power while preserving their fundamental openness and freedom Far from offering a counsel of despair the international contributors in this collection identify the considerable resources that democracy provides for blunting sharp power s edge With careful case studies of successful resistance efforts in such countries as Australia the Czech Republic and Taiwan this book offers an urgent message for anyone concerned with the defense of democracy in the twenty first century Contributors Ketty W Chen Sarah Cook William J Dobson John Fitzgerald Martin H la Samantha Hoffman Aynne Kokas Edward Lucas Tarek Masoud Nad ge Rolland Ruslan Stefanov Glenn Tiffert Martin Vladimirov Christopher Walker
