The Drug Wars In America 1940 1973:

The Drug Wars in America, 1940-1973 Kathleen Frydl, 2013-04-30 Examines how and why the US government went from regulating illicit drug traffic and consumption to declaring war on both **The Women's House of Detention** Hugh Ryan, 2022-05-10 This singular history of a prison and the queer women and trans people held there is a window into the policing of queerness and radical politics in the twentieth century The Women's House of Detention a landmark that ushered in the modern era of women's imprisonment is now largely forgotten But when it stood in New York City's Greenwich Village from 1929 to 1974 it was a nexus for the tens of thousands of women transgender men and gender nonconforming people who inhabited its crowded cells Some of these inmates Angela Davis Andrea Dworkin Afeni Shakur were famous but the vast majority were incarcerated for the crimes of being poor and improperly feminine Today approximately 40 percent of the people in women's prisons identify as queer in earlier decades that percentage was almost certainly higher Historian Hugh Ryan explores the roots of this crisis and reconstructs the little known lives of incarcerated New Yorkers making a uniquely queer case for prison abolition and demonstrating that by queering the Village the House of D helped defined queerness for the rest of America From the lesbian communities forged through the Women's House of Detention to the turbulent prison riots that presaged Stonewall this is the story of one building and much more the people it caged the neighborhood it changed and the resistance it inspired Winner 2023 Stonewall Book Award Israel Fishman Non Fiction Book Award CrimeReads Best True Crime Books of the Year **The War on Drugs** David Farber, 2021-11-30 Essays offering a revealing look at the history and legacy of the War on Drugs in the United States Fifty years after President Richard Nixon declared a War on Drugs the United States government has spent over a trillion dollars fighting a losing battle In recent years about 1.5 million people have been arrested annually on drug charges most of them involving cannabis and nearly 500,000 Americans are currently incarcerated for drug offenses Today as a response to the dire human and financial costs Americans are fast losing their faith that a War on Drugs is fair moral or effective In a rare multi-faceted overview of the underground drug market featuring historical and ethnographic accounts of illegal drug production distribution and sales The War on Drugs A History examines how drug war policies contributed to the making of the carceral state racial injustice regulatory disasters and a massive underground economy At the same time the collection explores how aggressive anti drug policies produced a deviant form of globalization that offered economically marginalized people an economic life line as players in a remunerative transnational supply and distribution network of illicit drugs While several essays demonstrate how government enforcement of drug laws disproportionately punished marginalized suppliers and users other essays assess how anti drug warriors denigrated science and medical expertise by encouraging moral panics that contributed to the blanket criminalization of certain drugs By analyzing the key issues debates events and actors surrounding the War on Drugs this timely and impressive volume provides a deeper understanding of the role these policies have played in making our current political

landscape and how we can find the way forward to a more just and humane drug policy regime *Marijuana* John Hudak, 2020-06-30 From Reefer Madness to legal purchase at the corner store With long time legal and social barriers to marijuana falling across much of the United States the time has come for an accessible and informative look at attitudes toward the dried byproduct of *Cannabis sativa* Marijuana A Short History profiles the politics and policies concerning the five leaf plant in the United States and around the world Millions of Americans have used marijuana at some point in their lives yet it remains a substance shrouded by myth misinformation and mystery And nearly a century of prohibition has created an enforcement system that is racist and the continuing effects of racially targeted over criminalization limit economic and social opportunities in communities of color Marijuana A Short History tells this story and that of states stepping up to enact change This book offers an up to date cutting edge look at how a plant with a tumultuous history has emerged from the shadows of counterculture and illegality Today marijuana has become a remarkable social economic and even political force with a surprising range of advocates and opponents Over the past two decades marijuana policy has transformed dramatically in the United States as dozens of states have openly defied the federal government Marijuana A Short History provides a brief yet compelling narrative that discusses the social and cultural history of marijuana but also tells us how a once vilified plant has been transformed into a serious even mainstream public policy issue Focusing on politics the media government racism criminal justice and education the book describes why public policy has changed and what that change might mean for marijuana s future place in society Rehab on the Range Holly M. Karibo, 2024 The first study of the Fort Worth Narcotic Farm an institution that played a critical role in fusing the War on Drugs mass incarceration and public health in the American West In 1929 the United States government approved two ground breaking and controversial drug addiction treatment programs At a time when fears about a supposed rise in drug use reached a fevered pitch the emergence of the nation s first narcotic farms in Fort Worth Texas and Lexington Kentucky marked a watershed moment in the treatment of addiction Rehab on the Range is the first in depth history of the Fort Worth Narcotic Farm and its impacts on the American West Throughout its operation from the 1930s to the 1970s the institution was the only federally funded drug treatment center west of the Mississippi River Designed to blend psychiatric treatment physical rehabilitation and vocational training the Narcotic Farm its proponents argued would transform American treatment policies for the better The reality was decidedly more complicated Holly M Karibo tells the story of how this institution once framed as revolutionary for addiction care ultimately contributed to the turn towards incarceration as the solution to the nation s drug problem Blending an intellectual history of addiction and imprisonment with a social history of addicts experiences Rehab on the Range provides a nuanced picture of the Narcotic Farm and its cultural impacts In doing so it offers crucial historical context that can help us better understand our current debates over addiction drug policy and the rise of mass incarceration **The Draft, 1940-1973** George Q. Flynn, 1993 Individual liberty is ingrained in American culture Yet in contrast to this cherished ideal

American men were inducted into military service under a system that flourished for more than twenty years before its rationalization was seriously questioned by more than a small minority of citizens. Analyzing this paradox, George Flynn provides the first comprehensive look at an institution that managed to sustain political and public favor through two wars before dying out under a barrage of protests during a third. Placing the American draft within a historical context, he shows how social and political considerations determined the character of conscription in the United States. The draft developed as it did, he argues, not mainly because of military needs or strategy but because of political decisions initiated by civilians with nonmilitary agendas. Explaining why the draft remained relatively immune to political criticism prior to the Vietnam conflict, Flynn chronicles the draft's military and strategic successes and failures in America's mid-century wars. He shows how major institutions and lobbies representing science, education, and various professions and religions influenced it, and how ultimately and ironically the selective character of the draft eventually made the system inequitable and helped cause its downfall.

This volume begins with articles that chronicle the history of the drug problem in the United States, the roots of the current policy effort, the emergence of drug abuse treatment as a means of demand reduction, and the links between drug use and crime. The contributors present detailed accounts of contemporary efforts to reduce the supply and demand of illegal substances, including prevention, intervention, treatment, and foreign policy considerations. They also discuss problematic sectors and controversies in contemporary drug control efforts, such as drug testing, the AIDS-intravenous drug use connection, and the debate over the legalization of drugs. John L. Andriot, 2010 *Lutherans and the Longest War*, David E. Settje, 2007. Through the lens of American Lutheranism, this book offers a unique examination into the intersection of religion, war, foreign policy, church politics, and nationalism during the contentious 1960s and 1970s. It contributes a two-pronged investigation of American history during the Vietnam War era. First, it outlines how this diverse group of Christians understood foreign policy and the church's relationship to it. Lutherans offer a broad spectrum of religious, political, and diplomatic points of view because they never have represented a homogenous or unified group in U.S. history. Second, this investigation provides the perspective of one cross-section of Americans who often remain hidden from historic memory: the silent majority, as so labeled during the Richard M. Nixon administration. Most Lutherans held moderate religious and political ideologies, but Lutherans also had representatives from

the far left and far right Lutherans also signify the Cold War context of this decade with a relatively uniform hostility toward the Soviet Union and the People's Republic of China Yet simultaneously they vigorously debated whether or not Communists had infiltrated U S institutions and contentiously disagreed about the Vietnam War Further reflecting America at that time by the mid 1970s they had reached a tentative reconciliation with one another because the infighting had so tired them In doing so they healed some of the wounds created by a decade of conflict but failed to learn lessons from the experience because they refused to dialogue further about it
