The Earth Mars Chronicles Vol 3 Haven Independence:

The Earth-Mars Chronicles Vol. 3 Haven for Humanity Gerald Driggers, 2015-05-28 Life on Earth is becoming more difficult as the 23RD century dawns The Alliance of nations that established the settlements on Mars has dwindled in number as economic woes spread Emigration to Mars has ceased Rare elements on Earth critical to governments and industries are being depleted rapidly and Mars is becoming an indispensable source Rivalries are reborn between nations and companies and as always there are those who stand ready to capitalize on the situation regardless of the cost The first generation of those born on Mars are faced with critical decisions that will determine the future of their planet and the way of life that they take for granted With eight settlements and a population barely over 50 000 many of those babies and children the Martians are seriously outnumbered and out gunned As always however their strength lies in their people and the unique bond that has developed with computational intelligence But bloodless revolutions are rare even on Mars The road to independence is never easy no matter what planet you are on

The Earth-Mars Chronicles Vol. 3 Haven for Humanity Gerald Driggers, 2015-05-28 Vol 1 of The Earth Mars Chronicles presented the events drama and personalities surrounding the decision of an international Alliance to establish a large human foothold on Mars Vol 2 examined the people and events that carved out a new life in multiple settlements on the Red Planet Now complex relations between Earth and Mars are unavoidable Her name is Liu She was one of the first born of the new breed of humans Martians She was different from the children born on Earth who migrated to Mars and sometimes the Earthers and the Martians yelled at each other but she never participated Over time Liu realized that the differences went well beyond the physical she had a thirst for knowledge that was unquenchable By age 15 there was nothing left to learn on Mars and she left for Earth Mars University in Earth orbit Thus began a period in the history of Earth Mars relations that would ultimately be dominated by her name even though those closest to her would never comprehend the extent of her powers But there was another name she would share history with one that was known for his ruthlessness as much as his accomplishments Jon Vander *Art of War* Victoria

Charles, Sun Tzu, 2012-05-08 Over the course of history many wars have changed the political and cultural landscape of our world While these events are defined by their upheaval and violence they frequently contribute to the formation of the identity of entire generations or groups of people and thus have significant cultural effects Despite the physical and emotional destruction that occurs during these turbulent periods they have inspired prolific artistic creation In the wake of traumatic events over the centuries a myriad of artists have produced works that immortalise the most dramatic moments of these wars in order to establish them in history forever This book presents beautiful images depicting famous battles and war scenes accompanied by the iconic text of the legendary Chinese military strategist Sun Tzu as well as texts documenting notable moments of different wars each written by well known writers From Uccello's The Battle of San Romano to Picasso's Guernica this work offers a captivating look at artworks inspired by war and what they reveal about humanity's history
