powerful concept central to The Curious Writer. The Curious Writer doesn't read like a textbook or provide a formula for composing essays. Instead, it encourages students to suspend judgment to ask questions and to seek answers much like academics do. Yet, it covers a wide range of genres beyond the academic essay: narrative, profile, review, ethnography, argument, and more, all with a distinctive approach and personality that is lacking in other texts. It also reinforces the assumption that genres are malleable with a new chapter on repurposing or re-genre-ing. Students love that this book helps them learn to write by pursuing their own curiosity. Teachers appreciate that Ballenger gives students ample opportunity to develop the habits of mind necessary to become critical thinkers and curious writers. The 8th Edition introduces sweeping changes to the philosophy and details of MLA works cited entries. Responding to the increasing mobility of texts, MLA now encourages writers to focus on the process of crafting the citation, beginning with the same questions for any source. These changes then align with current best practices in the teaching of writing, which privilege inquiry and critical thinking over rote recall and rule following.
