Israel, the Church, and Millenarianism Steven D. Aguzzi, 2017-07-28 Since the calls of the Second Vatican Council Roman Catholic theologians have sought to overcome an overarching problem facing Jewish Christian relations the concept of supersessionism the idea that God has revoked the spiritual and historical promises made to the Jewish people in favour of granting those same privileges to a predominantly Gentile Church *Israel the Church and Millenarianism* breaks new ground by applying an ancient principle to the problem of Israel's replacement the early Church's promotion of millennialism Utilizing the best in Patristic research Aguzzi argues that these earliest Christian traditions made room for the future of Israel because Christ's reign in the Church was viewed as provisional to his historical reign on earth Israel's role in salvation history was and is not yet complete Aguzzi's research also opens the door for a greater Catholic understanding of the millennial principle not shying away from its validity and relevance for understanding the importance of safeguarding Jewish particularity while concluding that the Synagogue and the Church are indeed on a parallel trajectory what will their Israel's acceptance be but life from the dead Romans 11:15 Ultimately the divine will is fulfilled through both Christian and Jewish means in history while each community is dependent in different ways upon the unfolding of God's future and the coming Parousia of Christ

Un/familiar Theology Susannah Cornwall, 2017-06-15 Through engagement with theologies of adoption pro natalism marriage and queer theology Susannah Cornwall figures developments in models of marriage and family not as distortions of or divergences from the divinely ordained blueprint but as developments already of a piece with these institutions being Much Christian theological discussion of family sex and marriage seems to claim that they are or should be unchanging and immaculate that to celebrate their shifting and developing natures is to reject them as good gifts

of God However models of marriage family parenting and reproduction have changed and are still in some cases radically changing These changes are not all a raging tide to be turned back but in continuity with goods deeply embedded in the tradition Alternative forms of marriage and family stand as signs of the hope of the possibility of change Changed institutions such as same sex marriage are new beginnings with the potential to be fruitful and generative in their own right In them humans create new imaginaries which more fully acknowledge the interactive nature of our relationships with the world and the divine

Connecting Jesus to Social Justice Thomas Hughson,2013-10-10 Many Christians see the societal dimension of their faith as a matter of biblical and social ethics Returning to classical Christology **Connecting Jesus to Social Justice** explores messianic potential in the Council of Chalcedon on the divine identity of Christ Who Jesus is makes all the difference to Christian entrance into the public sphere on behalf of a just society The Messiah s divinity bears on social mission directed toward a just social order Theological appropriation of Chalcedon overcomes a gap between the professing the Creed and interpreting social existence in light of a just social order **Connecting Jesus to Social Justice** argues a doctrinally traditional orthodox basis for Christian participation in the public sphere on behalf of social justice The book addresses a situation internal to churches in the U S from a Catholic perspective yet not without analogies in other churches and Christian movements Applying traditional Christology to contemporary social mission solidifies an answer to adversarial queries on the appropriateness of a social agenda Implications in the classical Christology also confirm churches and discipleship in commitment to social justice promoted through a subaltern counter public and then by word and deed in the public sphere
