Wittgenstein on Thought, Language and Philosophy Christoffer Gefwert,2017-11-22 This title was first published in 2000 What was Wittgenstein s relation to theory of meaning in his post 1937 writings and what was his characterization of philosophy How does philosophy in Wittgenstein s later writings differ from what is usually accepted in modern academic analytic philosophy This book discusses problems encountered in looking at Wittgenstein s texts after 1937 focusing particularly on whether the problem of philosophy amounts to a systematic or a theoretical activity Arguing that philosophy can be characterized as a form of conceptual investigation Gefwert aims to demonstrate that a theoretical view does not correspond to Wittgenstein s conception of philosophy For example philosophy is not transcendental as he thought it was before 1929 Neither is philosophical language universal as Wittgenstein 1929 1936 thought it was Proposing that a philosophical conceptual investigation is analogous to a psychotherapeutical session of Freud with the common aim to dissolve the conceptual problems in language that haunt us in our everyday life Gefwert s examination of the post 1937 writings of Wittgenstein concludes that philosophical investigation is a very different activity than that assumed by the Logical Positives and others adhering to a theoretical view **Publishers' circular and booksellers' record** ,1872
