**The Cultural Politics of Emotion** Sara Ahmed, 2013-11-15 In *The Cultural Politics of the Emotions* Sara Ahmed develops a new methodology for reading the emotionality of texts. She offers analyses of the role of emotions in debates on international terrorism, asylum and migration, and reconciliation and reparation, and reflects on the role of emotions in feminist and queer politics. Of interest to readers in gender studies and cultural studies, the psychology and sociology of emotions and phenomenology and psychoanalysis, *The Cultural Politics of the Emotions* offers new ways of thinking about our inner and our outer lives.

Publisher description **The Cultural Politics of Emotion** Sara Ahmed, 2004 This book examines how emotions are crucial to politics. Emotions work to define who we are as well as shape what we do. Sara Ahmed explores how emotions are lived and experienced through bodies as well as how they are named in acts of speech. With reference to debates on international terrorism, asylum and migration, as well as reconciliation and reparation, she suggests that emotions circulate within public culture as well as shape our encounters with others in everyday life. Ahmed considers how emotions keep us invested in relationships of power and also shows how emotions might be crucial to feminist and queer politics of resistance. *The Cultural Politics of Emotion* is in dialogue with recent literature on emotions within gender studies, cultural studies, sociology, psychology and philosophy. Features: Bold new take on the role of emotion in politics; Advances a theory of how emotions work as part of our lived experience and the affects they have in our lives; Topical case studies e.g. global terrorism, refugees and asylum; Australian reconciliation. The author has built something of a reputation for confronting difficult issues.

*Affective Spaces* Shih-Diing Liu, Wei Shi, 2024 The growing political conflicts unfolded in China provides an opportunity for rethinking the cultural politics of affect. Although the political formations in the region can be laden with a multitude of emotions, they tend to be poorly understood. This book explains why affect and emotion matter to Chinese politics from the Mao Zedong to the Xi Jinping era. It makes a unique contribution by investigating why and how affect matters to politics through a series of in-depth case studies of various art forms. It studies the dynamics of political passions and the contexts from which emotional subjects engage in hegemonic struggles through the creation of various cultural forms. Topics discussed include the mobilisation of revolutionary emotions in political movements, the desire of nationalism, the virtual affective space created by antagonistic identity politics, the subaltern body as a surface of emotion work and the blurring of public-private divides on social media. This book finds that cultural feelings and emotional experiences are salient to understanding political life, action and order. It concludes that the formulation and reconfiguration of the affective space are essential to political struggle.

**Cultural Politics of Emotion** Sara Ahmed, 2014-06-11 Emotions work to define who we are as well as shape what we do, and this is no more powerfully at play than in the world of politics. Ahmed considers how emotions keep us invested in relationships of power and also shows how this use of emotion could be crucial to areas such as feminist and queer politics. Debates on international terrorism, asylum and migration, as well as reconciliation and reparation are

explored through topical case studies In this book the difficult issues are confronted head on The Cultural Politics of Emotion is in dialogue with recent literature on emotions within gender studies cultural studies sociology psychology and philosophy Throughout the book Ahmed develops a theory of how emotions work and the effects they have on our day to day lives New for this editionA substantial 15 000 word Afterword on Emotions and Their Objects which provides an original contribution to the burgeoning field of affect studiesA revised BibliographyUpdated throughout
