## **The Darkening Spirit Jung Spirituality Religion:**

The Darkening Spirit David Tacey, 2013-06-26 The twenty first century could well be Jung's century just as the twentieth century was Freud's. Jung predicted the demise of secular humanism and claimed we would search for alternatives to science, atheism, and reason. We would experience a new and even unfashionable appetite for the sacred. Educated people, however, would not return to unreconstructed religions because these do not express the life of the spirit as discerned by modern consciousness. The sacred has developed a darker hue and worshipping symbols of light and goodness no longer satisfies the longings of the soul. The new sacred cannot be contained by the formulas of the past but nor can we live without a sense of the sacred. We stand in a difficult place between traditional religions we have outgrown and a pervasive materialism we can no longer embrace. These changes in our culture have come sooner than Jung might have imagined. In his time, Jung struck many as eccentric or unscientific. But his works speak to our time since we have experienced the full gamut of Jungian transformations: the unsettlement of Judeo-Christian culture, the rise of the feminine, the onslaught of the dark side, the critique of modernism and positivism, and the recognition that the Western ego is neither the pinnacle of evolution nor the lord of creation. A new life is needed beyond the ego but we do not yet know what it will look like. The outbreak of strong religion and terrorism are signs of the times but these are expressions of a distorted and repressed spirit and not one hopes genuine pointers to the future. What the future holds is uncertain but Jung's prophetic vision helps to prepare us for what is to come and this will be of great interest to analytical psychologists and psychoanalysts as well as to theologians, futurists, sociologists, and the general reader.

**Jung and Spirituality** David Tacey, 2025-03-25 An exploration of spirituality in the modern world using Carl Jung's insights. Jung believed that a spiritual life lies buried in everyone's unconscious and could be brought before consciousness with therapeutic results and that rationality and hubris prevented many in the modern world from acknowledging the spiritual aspects of our lives and repressing the spiritual was as harmful as repressing the sexual. This book contains a series of chapters which explore the applications and ramifications of Jung's psychospiritual theory. Starting with how to bring back spirituality into religion, it then looks at the activation of earth energies and the primordial mind by bringing the spirit back into nature. It proceeds to examine the spiritual journey, dreams, the individuation of god, and the healing power of spirituality.

**The Postsecular Sacred** David Tacey, 2019-07-16 In *The Postsecular Sacred: Jung, Soul and Meaning in an Age of Change*, David Tacey presents a unique psychological study of the postsecular, adding a Jungian perspective to a debate shaped by sociology, philosophy, and religious studies. In this interdisciplinary exploration, Tacey looks at the unexpected return of the sacred in Western societies and how the sacred is changing our understanding of humanity and culture. Beginning with Jung's belief that the psyche has never been secular, Tacey examines the new desire for spiritual experience and presents a logic of the unconscious to explain it. Tacey argues that what has fuelled the postsecular momentum is the awareness that something is missing and the idea that this could be buried in the unconscious is dawning.

on sociologists and philosophers While the instinct to connect to something greater is returning Tacey shows that this need not imply that we are regressing to superstitions that science has rejected The book explores indigenous spirituality in the context of the need to reanimate the world not by going back to the past but by being inspired by it There are chapters on ecopsychology and quantum physics and using Australia as a case study the book also examines the resistance of secular societies to becoming postsecular Approaching postsecularism through a Jungian perspective Tacey argues that we should understand God in a manner that accords with the time not go back to archaic rejected images of divinity The sacred is returning in an age of terrorism and this is not without significance in terms of the explosive impact of spirituality in our time Innovative and relevant to the world we live in this will be of great interest to academics and scholars of Jungian studies anthropology indigenous studies philosophy religious studies and sociology due to its transdisciplinary scope It would also be a useful resource for analytical psychologists Jungian analysts and psychotherapists

*Spiritual Philosophers: From Schopenhauer to Irigaray* Richard White, 2020-02-20 How does thinking illuminate the spiritual view of life How does a close examination of key spiritual thinkers help us to live in the modern world And in what way does philosophy enhance spirituality In this book Richard White answers these questions by analysing a range of important philosophers from Schopenhauer in the first half of the 19th century to Irigaray in the present day Each chapter examines the work of a single writer and one closely associated theme such as Nietzsche on generosity Benjamin on wisdom and Derrida on mourning The author looks at philosophy and spirituality in the tradition of continental philosophy and he views spirituality as something that can be separated from religion With the rise of reductive scientific materialism becoming ever more prevalent in modern society White seeks to recover the idea of a spiritual tradition which is not otherworldly but philosophical in nature The thinkers discussed in this book articulate some of the deepest possibilities of human existence *Spiritual Philosophers* offers an approach to philosophy as a spiritual practice which the author sees as an integral part of our life As a pioneering work in an emerging field the philosophy of spirituality this book contributes to several key debates surrounding spirituality theology and the role of philosophy in the contemporary world

**The Jungian Art. The Jungian Persona in Shakespeare's works** Aleksandra Vujovic, 2022-01-28 Document from the year 2021 in the subject English Language and Literature Studies Literature grade A language English abstract This work deals with various characters from Shakespeare's works and analyses them according to the Jungian Art In the individuation process Shakespeare sides with Jung related to the role and importance of the concept of free will None of Shakespeare's heroes follow their fate as an externally imposed inevitable chain of events which lead to their doom Rather it is their lack of self knowledge and self control as a sign of their failed individuation that causes their tragic ends These characters embody a soul which is in many ways great and noble but which has a fatal flaw which plays the role of fate In Jungian terms fate can be interpreted as unrecognized psychological processes or archetypes that are not dealt with which therefore influence or lead the actions of the ego conscience Shakespeare explores in depth these flaws to which the tragic hero after an inner conflict fails to attempt to deal with the archetypal psychic forces The result is that the tragic hero loses his soul the link to the archetype of Self as both the motivator and the goal of the individuation process In that regard when we examine for example Othello it is obvious that the cause of his crisis and ruin is psychological and that his intellectual confusion is not the cause but rather the result of the chaos in his psyche In Jungian terms Othello as the ego consciousness struggles and fails to understand and establish a functioning relationship with both Iago and Desdemona respectively seen as his shadow and anima The importance of dealing with these archetypes as a means of reaching psychic balance as one of the indicators of a successfully ongoing individuation process is described from a Jungian point of view

*Religion and the Spiritual in Carl Jung* Ann Belford Ulanov, 1999 **Religion as Metaphor** David Tacey, 2015-06-01

Biblical stories are metaphorical. They may have been accepted as factual hundreds of years ago but today they cannot be taken literally. Some students in religious schools even recoil from the fairy tales of religion believing them to be mockeries of their intelligence. David Tacey argues that biblical language should not be read as history and it was never intended as literal description. At best it is metaphorical but he does not deny these stories have spiritual meaning. Religion as Metaphor argues that despite what tradition tells us if we believe religious language we miss religion's spiritual meaning. Tacey argues that religious language was not designed to be historical reporting but rather to resonate in the soul and direct us toward transcendent realities. Its impact was intended to be closer to poetry than theology. The book uses specific examples to make its case: Jesus, the Virgin Birth, the Kingdom of God, the Apocalypse, Satan, and the Resurrection. Tacey shows that with the aid of contemporary thought and depth psychology we can re-read religious stories as metaphors of the spirit and the interior life. Moving beyond literal thinking will save religion from itself.

Spiritualism and the Foundations of C. G. Jung's Psychology  
F. X. Charet, 2015-04-17 Charet uncovers some of the reasons why Jung's psychology finds itself living between science and religion. He demonstrates that Jung's early life was influenced by the experiences, beliefs, and ideas that characterized Spiritualism and that arose out of the entangled relationship that existed between science and religion in the late nineteenth century. Spiritualism, following its inception in 1848, became a movement that claimed to be a scientific religion and whose controlling belief was that the human personality survived death and could be reached through a medium in trance. The author shows that Jung's early experiences and preoccupation with Spiritualism influenced his later ideas of the autonomy, personification, and quasi-metaphysical nature of the archetype, the central concept and one of the foundations upon which he built his psychology.

Minding the Self Murray Stein, 2014-03-14 Many people have an aptitude for religious experience and spirituality but don't know how to develop this or take it further. Modern societies offer little assistance and traditional religions are overly preoccupied with their own organizational survival. Minding the Self Jungian meditations on contemporary spirituality offers suggestions for individual spiritual development in our modern and post-modern times. Here Murray Stein argues that C. G. Jung and depth psychology provide guidance and the foundation for a new kind of modern spirituality. Murray Stein explores the problem of spirituality within the cultural context of modernity and offers a way forward without relapsing into traditional or mythological modes of consciousness. Chapters work towards finding the proper vessel for contemporary spirituality and dealing with the ethical issues that crop up along the way. Stein shows how it is an individual path but not an isolationist one, often using many resources borrowed from a variety of religious traditions. It is a way of symbol, dream, and experiences of the numinous with hints of transcendence as these come into personal awareness. Minding the Self Jungian meditations on contemporary spirituality uses research from a wide variety of fields such as dream work and the neuroscience of the sleeping brain, clinical experience in Jungian psychoanalysis, anthropology, ethics, Zen Buddhism, Jung's writings, and the recently published Red Book. It will be of interest to
