The Dark Side Of Democracy Explaining Ethnic Cleansing:

The Dark Side of Democracy Michael Mann, 2005 Publisher Description [The Iraqi Ba'th Regime's Atrocities Against the Faylee Kurds](#) Adel Soheil, 2025-08-07 The history of the relationship between the Iraqi Baath party and the Faylee Kurds an integral part of the Kurdish nation provides ample evidence of insecurity and large scale violations of fundamental human rights The Baathists employed different strategical methods against the Faylee Kurds ranging from discrimination and social exclusion on the one extreme to mass expulsion and genocide on the other They justified their systematic prosecution and repression of one of the main components of the Iraqi society on the basis of national security The animosity towards the Faylee Kurds intensified during the rule of Saddam Hussein as they were accused of being of Iranian origin and constituting a fifth column in Iraq and hence a threat to be removed As a result the Baath regime expelled hundreds of thousands of Faylee Kurds to Iran and exterminated about 22 000 of them The Faylee Kurds have lived in Iraq for centuries and played a significant role in the history of modern Iraq and most notably for being expelled and killed on a vast scale yet they are still an unknown community to the outside world This book attempts to address this shortcoming From the introduction Cover photo Monument in Baghdad honouring the killed and disappeared Faylee Kurds *Routledge Handbook on Human Rights and the Middle East and North Africa* Anthony Tirado Chase, 2016-11-10 Recent events such as Iran s Green Revolution and the Arab Uprisings have exploded notions that human rights are irrelevant to Middle Eastern and North African politics Increasingly seen as a global concern human rights are at the fulcrum of the region s on the ground politics transnational intellectual debates and global political intersections The Routledge Handbook on Human Rights and the Middle East and North Africa emphasises the need to consider human rights in all their dimensions rather than solely focusing on the political dimension in order to understand the structural reasons behind the persistence of human rights violations explores the various frameworks in which to consider human rights conceptual political and transnational international discusses issue areas subject to particularly intense debate gender religion sexuality transitions and accountability contains contributions from perspectives that span from global theory to grassroots reflections emphasising the need for academic work on human rights to seriously engage with the thoughts and practices of those working on the ground A multidisciplinary approach from scholars with a wide range of expertise allows the book to capture the complex dynamics by which human rights have had or could have an impact on Middle Eastern and North African politics This book will therefore be a key resource for students and scholars of Middle Eastern and North African politics and society as well as anyone with a concern for Human Rights across the globe **Socialism and Modernity** Peter Beilharz, 2009 This first collection of Peter Beilharz s highly influential thought traces the themes and problems manifestations and trajectories of socialism and modernity as they connect and shift over a twenty year period Woven throughout Beilharz s analysis is the urgent question of modern utopia how do we imagine freedom and equality in modernity The essays in this volume explore the relationship between socialism and modernity

across the United States Europe and Australia from the mid 1980s to the turn of the twenty first century a time that witnessed the global triumph of capitalism and the dramatic turn away from Marxism and socialism to modernity as the dominant perspective According to Beilharz we have seen the expansion of a kind of Weberian Marxism with the concept of revolution giving way to the idea of pluralized forms of power and the idea of rupture giving way to the postmodern sense of difference These changes come together with the discourse of modernism both aesthetic and technological Socialism and modernity Beilharz argues are fundamentally interrelated In correcting the conflation of Marxism Bolshevism and socialism that occludes contemporary political thinking he reopens a space for discussion of what socialist politics might look like now in the postcommunist postcolonial postmodern moment

Voices of the Rohingya People Nasir Uddin, 2022-03-29 This book offers a comprehensive depiction of the causes and consequences of the Rohingya crisis based on detailed ethnographic narratives provided by hundreds of Rohingya people who crossed the border following the Clearance Operation in 2017 The author critically engages with the identity politics on both sides of the border between Bangladesh and Myanmar and the categorisation of the Rohingya as the people of no man s land amidst the socio political and ethno nationalist dynamics of colonial and postcolonial transition in the region He then interrogates the role of the international community and aid industry before providing in depth policy recommendations based on his own experience working with Rohingya refugees

The book will be of interest to students scholars policymakers and NGOs in the fields of migration studies anthropology political science and international relations

Religion and Democratizations Jeffrey Haynes, 2013-09-13 This book examines key debates on religion and democratization from three main perspectives Religious traditions have core elements which are more or less conducive to democratization and democracy Religious traditions may be multi vocal but at any moment there may be dominant voices more or less receptive to and encouraging of democratization Religious actors rarely if ever determine democratization outcomes However they may in various ways and with a range of outcomes be of significance for democratization The contributions are divided into two sections 1 Religion democratization and democracy and 2 Secularization democratization and democracy Overall they examine the three assertions in the bullet points above The book s starting point is that in general around the world religions have left their assigned place in the private sphere This means they have in many cases become recognisably politically active in various ways and with assorted outcomes This re emergence from political marginality dates back until at least the 1980s At that time the US sociologist Jose Casanova noted that what was new and became news was the widespread and simultaneous refusal of religions to be restricted to the private sphere This involved a remodelling and re assumption of public roles by religion which theories of secularisation had long condemned to social and political marginalisation This book was published as a special issue of Democratization

International Development Anna Lanoszka, 2025-07-09 International Development Strategies and Legacies of Socio Economic Development examines the multifaceted challenges and strategies underlying socio economic progress in a

globally interconnected world Grounded in a thorough historical and theoretical framework this book explores the evolution of developmental strategies from post colonial challenges the growing influence of international organizations and the role of state policies to the impacts of global market integration and demands for environmental sustainability It scrutinizes the effectiveness of international organizations and foreign aid agencies the resilience of local strategies and the persistent disparities shaped by historical legacies extractive and inclusive state institutions deficit of individual rights systemic poverty gender inequality armed conflicts environmental hazards and food insecurity Through case studies and document driven insights it highlights the intersection of institutional frameworks economic imperatives and human agency in shaping developmental outcomes By integrating environmental and sustainability considerations with economic strategies the book underscores the necessity of inclusive policies that address structural barriers and promote human centered development This new edition has been thoroughly updated to include material on decolonization the various effects of the Covid 19 pandemic gender and sexual orientation based discrimination climate change migration and economic insecurity With a multi disciplinary approach taking into account politics international relations economics sociology cultural studies and the history of development this book is an invaluable resource for students and scholars as well as policy makers and practitioners working and researching in those fields
