HESI Hint: Main Ideas

Main ideas can be found in the beginning, in the middle, or at the end of a paragraph or passage. Always check the introduction and conclusion for the main idea.

Topic Sentence

A sentence that expresses the main idea of the paragraph. Can be stated in one or two sentences, and are often found at the beginning of paragraphs.

Identifying Supporting Details

These are details that the writer uses to give a description, a background, or simply more information to support the main idea. They may be examples, facts, or statistics. Often the author's main idea can be confused with the examples or reasons that support the main idea.

Reading Comprehension 2025:

Optimizing Bilingual Development in Typical and Atypical Children: Language Acquisition, Use, and Interventions Dimitra V. Katsarou, Ifigeneia Dosi, 2025-08-29 Bilingual language development is a complex and dynamic process that shapes how children interact, learn, and participate in society. Understanding the factors that influence bilingual acquisition is essential for supporting both typically developing children and those with developmental differences. Research demonstrates that bilingualism can offer significant cognitive, social, and academic benefits even for children with language-related challenges provided they receive appropriate support. In inclusive and culturally responsive environments, dual language development can enhance identity, promote equity, and facilitate meaningful participation in diverse communities. As such, fostering bilingualism is not only a linguistic endeavor but also a pathway to broader societal inclusion and resilience.

Optimizing Bilingual Development in Typical and Atypical Children: Language Acquisition, Use, and Interventions offers a comprehensive exploration of bilingual development across typical and atypical populations. It emphasizes evidence-based educational and clinical practices and provides a unified framework for understanding bilingualism as a dynamic and context-dependent process. Covering topics such as ADHD, morphology, and psychomotor development, this book is an excellent resource for researchers, educators, clinicians, policymakers, and more.

Readers will find evidence-based approaches to screening, diagnosis, and intervention, specifically tailored to adults with dyslexia. The text addresses crucial questions about long-term cognitive risk factors while highlighting how adults with dyslexia develop resilience through effective compensatory strategies. By synthesizing diverse research into a single authoritative resource, this book serves as an essential reference for scholars, students, and professionals worldwide who seek to understand how dyslexia impacts training, education, and employment throughout adulthood.

Understanding and Using Reading Assessment, K-12, **Reader Bot** Naomi S. Baron, 2026-01-20 What happens to human reading when AI bots can do it for us? Explosive developments in artificial intelligence have awed everyday users with the technology's ability to draw, do computer coding, and especially to write. Those AI-generated essays, poems, legal briefs, and responses to requests for information are all visible evidence of large language models at work. What we don't see is the critical prior step before it can write: AI needs to read. While AI's written outcomes are remarkably similar to what a diligent student, lawyer, or researcher might produce, AI doesn't read the way that humans do. Now that AI is proving an adept reader, what happens to our own reading skills and motivations, especially at a time when both voluntary and school reading are increasingly on the

decline We have learned that when we let chatbots write for us there are pros and cons to handing over our virtual pens It s critical that we also think through the consequences of relinquishing reading a deeply human activity to bots What do we stand to gain and lose when we let AI read for us Tracing the intersecting trajectories of AI and reading Reader Bot tackles this vital question revealing why we must be thoughtful about how we welcome AI as reader into our lives
