Transactional Information Systems Transactional Information Systems:

Transactional Information Systems Gerhard Weikum, Gottfried Vossen, 2002 This book describes the theory algorithms and practical implementation techniques behind transaction processing in information technology systems

Transactional Information Systems Gerhard Weikum, Gottfried Vossen, 2001-05-30 Transactional Information Systems is the long awaited comprehensive work from leading scientists in the transaction processing field Weikum and Vossen begin with a broad look at the role of transactional technology in today s economic and scientific endeavors then delve into critical issues faced by all practitioners presenting today s most effective techniques for controlling concurrent access by multiple clients recovering from system failures and coordinating distributed transactions The authors emphasize formal models that are easily applied across fields that promise to remain valid as current technologies evolve and that lend themselves to generalization and extension in the development of new classes of network centric functionally rich applications This book s purpose and achievement is the presentation of the foundations of transactional systems as well as the practical aspects of the field what will help you meet today s challenges Provides the most advanced coverage of the topic available anywhere along with the database background required for you to make full use of this material Explores transaction processing both generically as a broadly applicable set of information technology practices and specifically as a group of techniques for meeting the goals of your enterprise Contains information essential to developers of Web based e Commerce functionality and a wide range of more traditional applications Details the algorithms underlying core transaction processing functionality

Web Information Systems and Applications Weiwei Ni, Xin Wang, Wei Song, Yukun Li, 2019-09-17 This book constitutes the proceedings of the 16th International Conference on Web Information Systems and Applications WISA 2019 held in Qingdao China in September 2019 The 39 revised full papers and 33 short papers presented were carefully reviewed and selected from 154 submissions The papers are grouped in topical sections on machine learning and data mining cloud computing and big data information retrieval natural language processing data privacy and security knowledge graphs and social networks blockchain query processing and recommendations
