Intelligence and Computing ICONIC 2023 *Advances in the Internet of Things* Qusay Hassan,2025-07-17 Many reports estimated that in 2024 the number of Internet of Things IoT devices exceeded 18 billion worldwide with predictions suggesting that it could reach nearly 40 billion by 2033 Despite primarily being consumer devices a growing number of them will find use in industrial and enterprise applications This shows the significance of IoT and how it shapes the future However to realize its full potential we must address its emerging challenges and highlight recent applications advances and trends which is the focus of this book Security and privacy represent some of the key challenges IoT adopters face The severity of these issues is exacerbated by the growing number of IoT devices the expansion of Industry 4.0 and the emergence of Industry 5.0 and the significant increase in cybersecurity attacks Considering that ensuring security and privacy is crucial for the successful adoption of IoT this book dedicates several chapters to these areas This book also introduces some novel models that improve IoT environments and presents several practical implementations that utilize IoT to demonstrate some of its real world applications Furthermore it examines several emerging technologies that enable the realization of advanced IoT environments We see most IoT advances in three main areas the integration of artificial intelligence machine learning network technologies and hardware design Therefore this book dedicates several chapters to

these areas. Most chapters touch on artificial intelligence, machine learning, emphasizing the significance of these technologies in today's and next generation applications. The main objective of this book is to capture the state of the art in IoT and explore some of its emerging challenges, solutions, and technologies. This peer-reviewed book serves as a reference for researchers, academics, practitioners, and graduate-level students.

## **SUSTAINABILITY AND ECOLOGICAL TRANSITION IN THE POST-COVID ERA**

Ricardo García-Mira, Petra Schweizer-Ries, Cristina García-Fontán, 2024-09-23

The new challenges of our economic, social, and ecologic global context require solutions that go beyond business-as-usual strategies. While Europe and North America have gone through a deep economic crisis which has affected all aspects of life, especially housing and working conditions, other areas of the world have continued to grow and develop. The changing global context has important implications for the ways human beings organize their settings for everyday life, their residential environments and communal services in particular, and on the necessity for supporting transitions to sustainable societies.
