**Come As You Are: Revised and Updated** Emily Nagoski, 2021-03-02 A revised and updated edition of Emily Nagoski's game-changing New York Times bestseller *Come As You Are* featuring new information and research on mindfulness, desire, and pleasure that will radically transform your sex life. For much of the 20th and 21st centuries, women's sexuality was an uncharted territory in science, studied far less frequently and far less seriously than its male counterpart. That is until Emily Nagoski's *Come As You Are*, which used groundbreaking science and research to prove that the most important factor in creating and sustaining a sex life filled with confidence and joy is not what the parts are or how they're organized but how you feel about them. In the years since the book's initial publication, countless women have learned through Nagoski's accessible and informative guide that things like stress, mood, trust, and body image are not peripheral factors in a woman's sexual wellbeing; they are central to it, and that even if you don't always feel like it, you are already sexually whole by just being yourself. This revised and updated edition continues that mission with new information and advanced research, demystifying and decoding the science of sex so that everyone can create a better sex life and discover more pleasure than you ever thought possible.

**The History of Science Fiction and Its Toy Figurines** Luigi Toiati, 2023-12-21 This eye-opening book deserves a spot on the bookshelves of anyone who not only enjoys collecting but also has a great interest in all facets of the history of our hobby. Toy Soldier Collector: Science fiction, as the name suggests, is the combination of science and fantasy. In addition to a literary form, it also encompasses film, TV, comics, toys, and our beloved toy astronauts or other figures such as aliens, monsters, and other playable genres. The term science fiction was coined by publisher Hugo Gernsback around the first decades of the last century to refer to the predominantly space adventures covered in his magazines. Space invaded radio, cinema, TV, and consequently for a long time, toy figurines were predominantly space-related, later evolving into other themes. This lavishly illustrated book covers both the history of literary science fiction, following in the footsteps of contemporary official criticism, and toy figurines inspired by science fiction. You will also find several other themes, such as the link between science fiction figures and cinema, radio, TV, comics, and more. Luigi Toiati offers to both guide the reader on an often nostalgic walk through science fiction in all its various forms and to describe the figurines and brands associated with it.

**Race and Popular Fantasy Literature** Helen Young, 2015-08-11 This book illuminates the racialized nature of twenty-first-century Western popular culture by exploring how discourses of race circulate in the Fantasy genre. It examines not only major texts in the genre but also the impact of franchises, industry, editorial, and authorial practices, and fan engagements on race and representation. Approaching Fantasy as a significant element of popular culture, it visits the struggles over race, racism, and white privilege that are enacted within creative works across media and the communities which revolve around them. While scholars of Science Fiction have explored the genre's racialized constructs of possible futures, this book is the first examination of Fantasy to take up the topic of race in depth. The

book's interdisciplinary approach drawing on Literary Cultural Fan and Whiteness Studies offers a cultural history of the anxieties which haunt Western popular culture in a century eager to declare itself post race. The beginnings of the Fantasy genre's habits of whiteness in the twentieth century are examined with an exploration of the continuing impact of older problematic works through franchising, adaptation and imitation. Young also discusses the major twenty-first century sub-genres which both re-use and subvert Fantasy conventions. The final chapter explores debates and anti-racist praxis in authorial and fan communities. With its multi-pronged approach and innovative methodology, this book is an important and original contribution to studies of race, Fantasy and twenty-first century popular culture. *Good Housekeeping Magazine*, 2008

**The Marketing Stuff** Naleighna Kai, J. L. Woodson, J. L. Campbell, Mary B. Morrison, Pat G'Orge-Walker, Ehryck Gilmore, Stephanie M. Freeman, Florenza Denise Lee, Christine Pauls, U. M. Hiram, Anita L. Roseboro, Michelle D. Rayford, Marie McKenzie, Bridgett Renay, Sekinah Jackson, Aiken Ponder, Kadesha Powell, Erica B. Davis (Davis, Erica B.) [A01] Darryl Benally, Yvonne Elliott, La Ammitai, Patty Harris, 2022-06-23. The Marketing Stuff is the companion book for *The Write Stuff: A Journey into Writing Your Book* and takes authors on the part of the journey that some find challenging. **Democracy and Governance for Resourcing the Commons** Janet McIntyre-Mills, Norma R. A. Romm, Yvonne Corcoran-Nantes, 2019-06-11. This book promotes the well-being of the commons through representation and accountability through monitoring from below in order to operationalize engagement. This book views the commons as a legal concept, a transformative governance concept, and a basis for systemic ethics. The chapters focus on practical responses to address complex problems that comprise many interrelated variables and are perceived differently by stakeholders with different values and life experiences. By considering these different stakeholders, the goal is to highlight ways to regenerate and invigorate employment opportunities. The book identifies pathways towards ethical vocational education to enable lifelong engagement by active citizens, which requires action learning to address areas of perceived policy concern. Throughout the chapters in this book, the authors discuss transformative research and its implications on stakeholders. They focus on representation and its implications for thinking and practice. One author makes the case for fostering non-anthropocentric approaches to ethical development. In addition, the chapters cover case studies including governance challenges associated with water management using a mixed method approach and also production of mushrooms in collaboration with coffee growers in Jakarta. The book focuses on ways to de-colonialise knowledge formation in public policy and makes the case for an alternative approach to governance and democracy that takes into account a range of local people's perspectives.
