## Tips To Follow The 30-Day Walking Plan

1. Slow is a stroll - approx 25 minutes/mile. Use this easy pace to warm up.
2. Moderate is a normal walking pace - 20 minutes/mile. You can still talk as you walk.
3. Fast is walking at a brisk pace where you're pushing yourself - 17 minutes/mile.
4. Complete sessions in one go or split into 2
5. Repeat a week if you find it too hard.
6. If the plan is too easy increase the intensity of your walks with intervals or hills.

Secular Meditation-Based Ethics of Responsibility (MBER) Program Helene Hagège, 2022-12-09 An ethical solution to the current health ecological and financial problems we face is to mobilize our responsibility by overcoming our duality with the environment. It calls for changes in attitudes and behaviors that are not self-evident and can be facilitated by specific learning. Mindfulness-based interventions (MBI) are increasingly used in professional settings, particularly in therapy, because their effectiveness in terms of change is increasingly supported by scientific evidence. This book presents a detailed program aimed at developing an ethics of responsibility known as Mindfulness or Meditation-Based Ethics of Responsibility (MBER). It combines theoretical explanations, exercises, and secular meditations to propose rather than impose ethical guidelines accompanying participants in identifying their own ethical values, acting in accordance with them while weakening their dual functioning.

*Routine Miracles* Conrad Fischer, 2009-10-30 This book covers medical advances that would once have been called miracles but have now become routine. The patients' stories within this book yield hope, optimism, and triumph. This is the best time ever to come out of medical school and training. This fact will inspire and uplift everyone in the medical profession as well as all of us who must at some point rely on the art of medicine to see us through. Conrad Fischer MD: What has ruined today's medical students' interest in devoting their lives to finding cures for the most rampant diseases riddling our population? How can young doctors not be energized and excited by modern breakthroughs? Why are they not inspired by the ability of current AIDS drugs to increase life expectancy by twenty-five years? In *Routine Miracles*, award-winning internist and medical educator Conrad Fischer investigates the disconnect between medical advances and the rise of physician dissatisfaction. Fischer surveyed more than 3,000 physicians and interviewed hundreds of patients to uncover the seeds of doctors' discontent. Based upon his findings, he offers a deeply personal and compelling call to action for all of us, doctor and patient alike, to celebrate the present and the future of medicine.

In today's world a club needs to offer more than state of the art equipment and certified fitness instructors to recruit and retain members. You need something that will appeal to your members and keep them coming back. In *Successful Programs for Fitness and Health Clubs 101 Profitable Ideas* you will learn how to utilize programming to meet your strategic and financial goals. Written by internationally respected programming consultant Sandy Coffman, this book will teach you exactly what programming is and how to make it work for you. *Successful Programs for Fitness and Health Clubs 101 Profitable Ideas* presents more than 100 ready to use programs for use in fitness centers, group exercise studios, pools, gyms, and classrooms. The programs are designed to get hundreds of new members involved immediately. But the text is far more than just a program recipe book. Coffman addresses the challenges faced in programming, including teaching skills, communication skills, marketing techniques, and follow up procedures. Her advice will help you design programs that unite members with common interests and abilities and foster a sense of belonging and commitment. Such programming leads to increased participation, reduced attrition, greater retention, more referrals, less downtime, and improved staff productivity. The text will first lay the foundation for programming by presenting the key principles and concepts that need to be considered. Part I explores the five steps to programming success: the 10 keys to member retention, hiring and training the right people, why a program director is needed, internal and external promotions, and niche marketing. By understanding and using the information in Part I, you can successfully implement the programs in Part II. Here you will find 101 actual programs with numerous variations, including ideas for court sports, group exercise, and programs aimed at adults, families, kids, seniors, and women, covering a broad range of fitness levels from beginners and intermediates to advanced participants. It also includes programming for specific time frames such as the holiday season, spring, or summer. An activity finder located in the front of the text makes it easy to find programs based on criteria ranging from the type of activity or member to the type of special event. In addition to providing vital information for planning your programs, *Successful Programs for Fitness and Health Clubs 101 Profitable Ideas* comes with a CD ROM containing more than 60 files that will help you create support materials to get your programs started. You will find printable quizzes, flyers, score cards, invitations, scoring systems, round robin tournament schedules, and logos, most of which can be customized to include information specific to your facility, such as logo, contact names, dates, times, and more. Additional files provide templates to create T-shirts, buttons, and other promotional pieces. Headings and icons in the text indicate when to refer to the CD ROM for certain materials. When it comes to enhancing your club offerings, follow the expert programming advice from Sandy Coffman. With it, you will be able to create, implement, and deliver successful programs that will attract and retain new members and ultimately make your club a greater success.
