

VOLVO BM

L 120

VOLVO BM L 120

• SPEEDY, POWERFUL, WELL BALANCED

Loading trucks, feeding crushing and screen-
ing plants, haul and carry over long distances,
etc., shoring and grading – these are opera-
tions where the Volvo BM L 120 has its rightful
place as a speedy and reliable link in an effi-
cient production chain.
The L 120 is a very well balanced machine.

The engine and transmission form a well
matched unit, allowing the operator to make
full use of the machine's resources from the
comfortable cab. The new Volvo BM L 120 is
designed to handle a sound investment – built to meet
the highest demands on operating pro-
ductivity and economy.

RELIABLE POWER PACK

Vital components such as the engine, transmission
and axles are of our own manufacture. This means
that we can assure consistently high quality and co-
ordinated function.

Automatic Power Shift

The Volvo BM L 120 has an automatic shift transac-
tion as option. A specially programmed computer
takes care of gear selection and ensures that the
machine works in the correct gear in all situations.
Result: Higher production and better fuel economy.

LOADER UNIT

The Volvo BM L 120 has a strongly built loader unit
specially designed for heavy-duty production work.
The long reach and good lifting height make it easy to
manoeuvre the load over high hoppers and vehicles
etc. It is important for a production loader to have
good lift force in all positions, and the L 120 has a
lockage geometry which permits this throughout the
whole lifting range. Another refinement is an bucket

rollback. The bucket swivels up against a machine
rest stop so that the load in a well-filled bucket is
moved as far back as possible, thereby increasing
machine stability.
