Value Stream Mapping Johann Dumser, 50 minutes, 2015-09-25 Un guide pratique et accessible pour visualiser rapidement et simplement les processus de production de votre entreprise. Sentez-vous qu'il est temps d'optimiser les processus de votre entreprise pour gagner en efficacité ? Pourquoi n'avez-vous pas envisagé de cartographier les flux d'information et de production qui créent de la valeur ajoutée pour votre produit final ? Le Value Stream Mapping est l'outil qu'il vous faut car il vous fournira une vision réaliste des sources de gaspillage qui ralentissent la croissance de votre entreprise. Ce livre vous aidera synthétiser les processus de production des produits, vous rendre compte des points à optimiser, entamer une démarche d'amélioration continue et bien plus encore. Le mot de l'auteur : Avec l'auteur Johann Dumser, nous avons cherché à présenter aux lecteurs une méthode de cartographie très simple et particulièrement efficace. Que les adeptes de l'optimisation de processus n'hésitent pas à se familiariser au Value Stream Mapping. Juliette Nève PROPOS DE LA SÉRIE 50 MINUTES Gestion Marketing La série Gestion Marketing de la collection 50 MINUTES fournit des outils pour comprendre rapidement de nombreuses théories et les concepts qui façonnent le monde économique d'aujourd'hui. Nous avons conçu la collection Business Economics en pensant aux nombreux professionnels obligés de se former en permanence en économie, en management, en stratégie ou en marketing. Nos auteurs combinent des éléments de théorie, des études de cas et de nombreux exemples pratiques pour permettre aux lecteurs de développer leurs compétences et leur expertise.

Industrial Objectives and Industrial Performance Lamia Berrah, Vincent Clivillé, Laurent Foulloy, 2018-02-14 This book aims to provide a synthesis of work and ideas done by our team over the last fifteen years in the field of information processing for expression of industrial performance. The statement of objectives on the one hand and the calculation of the other performances are discussed with the search for the explanation of the link between these two basic steps of an industrial improvement. Beyond the synthetic and typological character of this study, the originality of this work lies in the consideration of the temporal dimension of the objectives and spread on performance expressions. A fuzzy processing and multi-criteria aggregations time information that can be quantitative, qualitative or symbolic are proposed in line with industrial practice and literature in the field of performance management.

Lean Administration: From Value Stream Mapping (Vsm) to Service Stream Mapping (Ssm) David Meyner, 2019-02-11 This Business Excellence manual describes in practical way concrete steps and examples to create a value stream analysis in the production area as well as a value stream analysis in the administrative area. This manual is not theoretical. It is written from practitioners for practitioners. It describes step by step the process for implementation of a value stream analysis and service stream analysis. For this purpose the systematics from the production area was transferred graphically and comprehensibly to the administrative area. Lean administration has recently become increasingly important for companies to optimize their administration area to create transparency and

sustainability in their daily work processes Hereby service stream mapping is a very useful tool This manual gives the reader concrete implementation instructions and is suitable for both practitioners and students to understand the systematics of value stream mapping and service stream mapping in a short time The Strategos Guide to Value Stream & Process Mapping Quarterman Lee,Brad Snyder,2006 At last this much anticipated book has been published and provides a much needed breath of fresh air The Strategos Guide to Value Stream and Process Mapping has helpful tips on facilitating group VSM exercises and helps put VSM in the greater Lean context With photos and examples of related Lean practices the book focuses on implementing VSM not just on drawing diagrams and graphs This is the most comprehensive and practical book on the subject to date Value Stream Mapping: How to Visualize Work and Align Leadership for Organizational Transformation Karen Martin, Mike Osterling, 2013-10-25 The first of its kind a Value Stream Mapping book written for those in service and office environments who need to streamline operations Value Stream Mapping is a practical how to guide that helps decision makers improve value stream efficiency in virtually any setting including construction energy financial service government healthcare R D retail and technology It gives you the tools to address a wider range of important VSM issues than any other such book including the psychology of change leadership creating teams building consensus and charter development Karen Martin is principal consultant for Karen Martin Associates LLC instructor for the University of California San Diego's Lean Enterprise program and industry advisor to the University of San Diego's Industrial and Systems Engineering program Mike Osterling provides support and leadership to manufacturing and non manufacturing organizations on their Lean Transformation Journey In a continuous improvement leadership role for six years Mike played a key role in Square D Company's lean transformation in the 1990s **Value Stream Management** Don Tapping, 2002-05-06 The Value Stream Management System simplifies the planning process for lean implementation ensuring quick deployment and greater success It links the metrics and reporting required by management with the lean tools needed on the manufacturing floor The central feature of this illustrative and engaging book is the value stream management storyboard a tool representing an eight step process for lean implementation The storyboard brings together people tools metrics and reporting into one visual document The authors stress the importance of reaching beyond single point kaizens to ensure a sustainable lean implementation process Many people use the value stream map as an individual tool but not within the context of a proven overall system Value Stream Management Eight Steps to Planning Mapping and Sustaining Lean Improvements shows you how to use mapping as part of a complete system for lean implementation The final outcome of Value Stream Management is the creation of a complete visual plan for lean transformation and the mastery of the skills required to implement that plan Instead of just using Toyota Production System Tools the authors encourage you to create your own lean production system Value Stream Management will help you to complete your process and sustain it Along with this book you receive downloadable resources containing a lean assessment tool a storyboard template useful charts a team charter forms reports
