Artificial Intelligence in Price Management. A Qualitative Assessment of Potentials, Risks and Impacts Lennard Heyder, 2024-12-05 Master's Thesis from the year 2024 in the subject Business economics Information Management grade 1.0 Otto Beisheim School of Management Vallendar Chair of Strategy and Marketing course Price Management language English abstract This thesis explores the transformative role of Artificial Intelligence AI in price management focusing on its impact across the four key phases strategy analysis decision making and implementation as defined by Simon and Fassnacht The motivation for this research arises from a gap in existing literature no conceptual framework currently addresses AI's specific impacts on each phase of the price management process The primary aim is to assess AI's influence including opportunities risks and structural changes within each phase Two research questions guide this study What phase specific value propositions and risk factors will AI introduce in each of the four price management phases How can these impacts be synthesized into a comprehensive decision making framework To address these questions a narrative literature review of recent studies 2022-2024 was conducted culminating in a structured framework This framework provides a cross industry overview of AI applications in pricing equipping organizations with a practical tool to evaluate their pricing strategies and make informed decisions about AI integration The framework presents a varied value risk profile across phases helping organizations identify where AI can best support pricing and where risks such as algorithmic bias and transparency issues require oversight A phased approach to AI adoption is recommended beginning with phases where AI supports human judgment to limit risk Higher levels of automation and decision authority can be introduced later to maximize efficiency and value provided there is a balanced approach to risk technological maturity and alignment with organizational goals

*Artificial Intelligence Tools Book* Manish Soni, 2024-11-13 Welcome to the exciting and rapidly evolving world of artificial intelligence AI This book *Artificial Intelligence Tools Unlocking the Power of Intelligent Systems* is designed to be your comprehensive guide to understanding implementing and leveraging the cutting edge tools that drive the advancements in AI Whether you are a seasoned professional in the field or a curious newcomer this book aims to provide you with valuable insights and practical knowledge to navigate the multifaceted landscape of AI tools From machine learning algorithms to neural networks readers will gain insights into the core concepts that form the backbone of intelligent systems We aim to make complex ideas accessible ensuring that readers regardless of their technical background can grasp the essentials of AI Furthermore we recognize the ethical implications and societal considerations surrounding AI In a dedicated section we address the responsible use of AI tools discussing issues such as bias in algorithms transparency and accountability It is crucial for individuals working with AI to understand the ethical dimensions of their work and strive towards the development of AI systems that align with human values and promote inclusivity In addition to the technical aspects this book emphasizes the importance of continuous learning and adaptation in the rapidly evolving field of AI The final sections explore

emerging trends such as reinforcement learning autonomous systems and AI driven creativity offering readers a glimpse into the future of artificial intelligence

**Key Features**

- 1 Extensive Theoretical Content The book covers the full spectrum of topics from fundamental concepts to advanced techniques Each chapter is designed to build on the previous one ensuring a logical progression and deep comprehension of the subject matter
- 2 Online Test Papers To reinforce your learning we provide a series of online test papers that mimic real world scenarios and challenges These tests are designed to evaluate your understanding and help you identify areas that need further study
- 3 Video Tutorials Understanding concepts can sometimes be challenging through text alone Our book includes links to a series of video tutorials that provide visual and auditory explanations of complex topics These videos are created by experts and are intended to complement the written material offering a more immersive learning experience
- 4 Practical Applications Each chapter includes real world examples and case studies that illustrate how application is applied across different industries
- 5 Self Assessment Tools At the end of each chapter self assessment questions and exercises allow you to test your understanding and track your progress These tools are invaluable in helping you gauge your readiness and build confidence as you move forward

Whether you are an aspiring data scientist a business professional exploring AI application or an academic researcher pushing the boundaries of knowledge *Artificial Intelligence Tools* is crafted to be a valuable companion on your journey As you embark on this exploration of artificial intelligence we encourage you to engage with the content experiment with the tools and contribute to the ongoing dialogue surrounding the responsible development and application of intelligent systems The future of AI is in your hands and we are excited to be part of your learning journey

**The Artificial Intelligence Report** ,1985 *Digital Libraries Across Continents* Le Yang,Alicia Salaz,2025-06-13 *Digital Libraries Across Continents* illustrates how digital librarianship practitioners and scholars digitize exhibit and preserve their cultural heritage and how these practices may be influenced by the policy economic and sociocultural environments in which they are developed Including scholarly articles case studies examples of best practice and conceptual essays solicited from different continents this book provides an overview of the status quo of digital libraries around the globe The case studies examine how macro level policy funding and social priorities influence the development of digital libraries The volume offers a deeper understanding of the similarities and differences between libraries in different countries and the ways in which they view foster develop and sustain digital librarianship Chapters within the book examine systems standards workflows content protocol social and policy environments culture metadata and more through a series of case studies provided by practitioners working in these settings Taking a comparative international approach the book promotes the development of inclusive accessible and sustainable digital libraries that serve a global human knowledge endeavor *Digital Libraries Across Continents* provides a wide ranging examination of issues in cross border digital library contexts It will be essential reading for library practitioners as well as information scientists and educators

*We, the Robots?* Simon Chesterman,2021-08-05 Should we regulate artificial

intelligence Can we From self driving cars and high speed trading to algorithmic decision making the way we live work and play is increasingly dependent on AI systems that operate with diminishing human intervention These fast autonomous and opaque machines offer great benefits and pose significant risks This book examines how our laws are dealing with AI as well as what additional rules and institutions are needed including the role that AI might play in regulating itself Drawing on diverse technologies and examples from around the world the book offers lessons on how to manage risk draw red lines and preserve the legitimacy of public authority Though the prospect of AI pushing beyond the limits of the law may seem remote these measures are useful now and will be essential if it ever does

**New Directions in Educational Technology and Administration** Fred Paas,Srikanta Patnaik,Taosheng Wang,2025-07-14 New Directions in Educational Technology and Administration emphasize the integration of cutting edge tools like artificial intelligence big data and augmented reality to enhance teaching and learning experiences This volume focus on creating more personalized accessible and equitable education systems that cater to diverse learners At the same time administrative innovations prioritize data driven decision making and streamlined operations to foster efficient institutional management This volume also explores the most recent innovations and significant developments in the domain of Educational Technology and Administration offering a thorough overview of the current landscape It encompasses various dimensions including Learning Analytics and Curriculum Design Online and Distance Learning Leadership in Modern Education By merging theoretical knowledge with practical applications this book empowers educators researchers practitioners and students to navigate and excel with the New Directions in Educational Technology and Administration with a focus on responsible technology for assessment and feedback the book address challenges like digital equity and ethical implementation By embracing these new directions the education sector is poised to redefine learning environments and empower future generations
