Yelery,Mrudul Nile,2021-11-22 In recent decades Asia s ascent has been contextualized as the rise of two major neighboring countries in Asia India and China Besides voluminous work on the prospects and convergences between the two currently they stand at an intersection of time where suspicion and mistrust veils the confidence A degree of uncertainty arises from the more profound paradoxes and India has been falling short in escaping the tailspin China has created in the bilateral regional and global economic dynamics India s China relations is not just about boundaries and boycott of Chinese products The root of the relationship lies in deficiency of trust knowledge and repository of experts on China To deal with India s China Tailspin effectively one must know and comprehend China thoroughly This book brings out several aspects of India s

political economic relations with China on the table. The book underlines the fact that while leveraging China's inherent contradictions India has to deleverage from China's subtle global aspirational designs of domination. Besides analyses on leadership state capitalism and geo economics the book describes special cases such as the Trade War Structural Conflicts in Chinese Political Economy Bangladesh China India Myanmar Economic Corridor WTO negotiations Maritime trade Belt and Road Initiative and Taiwan to better elaborate the stakes involved in dealing with China. The recent boundary tension created a long tailspin which in turn set off a raucous debate over China's economic diplomacy and how India could comprehend it well. **Human Virtuality and Digital Life** Richard Frankel, Victor J. Krebs, 2021-08-12 Winner of the Gravida Best Book Award 2022 and the Courage to Dream Book Prize 2023 from the Academy of the American Psychoanalytic Association. This book is a psychoanalytic and philosophical exploration of how the digital is transforming our perception of the world and our understanding of ourselves. Drawing on examples from everyday life myth and popular

culture this book argues that virtual reality is only the latest instantiation of the phenomenon of the virtual which is intrinsic to human being It illuminates what is at stake in our understanding of the relationship between the virtual and the real showing how our present technologies both enhance and diminish our psychological lives The authors claim that technology is a pharmakon at the same time both a remedy and a poison and in their writing exemplify a method that overcomes the polarization that compels us to regard it either as a liberating force or a dangerous threat in human life The digital revolution challenges us to reckon with the implications of what is being called our posthuman condition leaving behind our modern conception of the world as constituted by atemporal essences and reconceiving it instead as one of processes and change The book s postscript considers the sudden plunge into the virtual effected by the 2020 global pandemic Accessible and wide reaching this book will appeal not only to psychotherapists psychoanalysts and philosophers but anyone interested in the ways virtuality and the digital are transforming our contemporary lives Introduction to Mass Communication Stanley J.
