before any European immigrants arrived on the North American Continent Native American Indians engaged in a communal

lifestyle From 1600 to 1791 American Colonists established a thriving home production economy and having ownership of

their tools or means of production they produced everything they needed to survive They were self reliant and the American

Colonists sold their excess goods to merchants who resold them for a profit By 1791 the merchants were able to start the

first textile factories as a result which brought an abrupt end to the home production economy and the beginning of

American Capitalism Former independent colonists were now forced into the textile factory and the first wage contract

appeared in America The wage contract also set in motion a contradiction between the capitalist owners of the means of

production and the new American Working Class The wage contract allowed the owners of working class labor and the

instruments of production to evolve into an American Ruling Class and the producers of all commodities and wealth became

the American Working Class People wage workers class Because of their divergent interests the two classes formed a class

contradiction and the latter became known as the capitalist American Ruling Class Opposite and the American Working Class

Opposite People wage workers This development occurred mainly in the northern factory economy while in the South

uncompensated African Slave Labor was dominant which was owned by an American Slaveholding Class By 1860 the

contradiction between the capitalist American Ruling Class Opposite owner of the wage labor system came into a head on

contradiction with uncompensated African Slave Labor and a bloody Civil War was fought to determine which type of means

of production would prevail and dominate during the 20th Century The South was defeated and the wage contract system

became nationalized Therefore throughout the twentieth Century including the beginning of the new Millennium the

capitalist American Ruling Class Opposite expropriated the labor s product of the American Working Class Opposite People

wage workers which resulted in this class accumulation of multiple billions of dollars of Surplus Value and simultaneously

this loss translated into the American Working Class Opposite People wage workers increasing alienation estrangement loss
