File Import Tips

- All columns in our sample file are supported, but only ISBN is required.
- CSV files work best. If you have trouble importing an XLS or other spreadsheet file, try saving it as a CSV.
- Some computers might tack an extra ".txt" onto your file name. If your file has a name like "mybooks.csv.txt", please rename it to "mybooks.csv" before uploading.
- You can import the same file multiple times with no ill effects.
- If you have commas in any fields, be sure to enclose those fields in quotes.
- If your import file includes a field for tag or shelf names, separate multiple tag/shelf names with spaces.
- You can only import books that are in our database. This is to maintain the quality of our book catalog. You can manually add any books we can't find.
