Richard Kieckhefer

The Gathering Ends Beginning:

The End May Be Farther Than You Think Jack Uresk, 2011-08-01 Is it possible that The earth will be devastated by objects from space prior to the second coming of Jesus Christ There may be a considerable length of time perhaps decades between the first signs of the coming of the Lord and the actual descent The four horsemen of the apocalypse have no relationship to the last days Armageddon will be the greatest battle never fought There may be more than one coming of Christ Everyone will be left behind because there will be no pre tribulation rapture Weve already missed the Great Tribulation This book explores these and other possibilities *Beginner's Guide to Silk Ribbon Embroidery* Cox, 2014

Forbidden Rites Richard Kieckhefer, 1998-03-05 Preserved in the Bavarian State Library in Munich is a manuscript that few scholars have noticed and that no one in modern times has treated with the seriousness it deserves Forbidden Rites consists of an edition of this medieval Latin text with a full commentary including detailed analysis of the text and its contents discussion of the historical context translation of representative sections of the text and comparison with other necromantic texts of the late Middle Ages The result is the most vivid and readable introduction to medieval magic now available Like many medieval texts for the use of magicians this handbook is a miscellany rather than a systematic treatise It is exceptional however in the scope and variety of its contents prayers and conjurations rituals of sympathetic magic procedures involving astral magic a catalogue of spirits lengthy ceremonies for consecrating a book of magic and other materials With more detail on particular experiments than the famous thirteenth century Picatrix and more variety than the Thesaurus Necromantiae ascribed to Roger Bacon the manual is one of the most interesting and important manuscripts of medieval magic that has yet come to light In the End -- The Beginning Jürgen Moltmann, Margaret Kohl, 2004-05-05 Jürgen Moltmann's new book is a powerful testament to personal hope in chaotic even catastrophic times and one of his most personal and compelling works to date Debunking the classic images of Christian apocalyptic scenarios Moltmann instead shows that Christian expectation of the future has nothing to do with a final struggle between God and Satan but everything to do with new beginnings and a horizon of hope in our birth in our many rebirths and in our resurrection Book jacket
