The Gender Imperative Human Security Vs State Security:

The Gender Imperative Betty A. Reardon, Asha Hans, 2012-12-06 The book asserts that human security derives from the experience and expectation of human well being which depends on four essential conditions a life sustaining environment the meeting of essential physical needs respect for the identity and dignity of persons and groups protection from avoidable harm and expectations of remedy from them The book demonstrates their integral relationship to human security Patriarchy being the germinal paradigm from which most major human institutions such as the state the economy organised religions and social relations have evolved the book argues that fundamental inequalities must be challenged for the sake of equality and security The fundamental point raised is that expectation of human well being is a continuing cause of armed conflict which constitutes a threat to peace and survival of all humanity and human security cannot exist within a militarised security system The editors of the book bring together 14 essays which critically examine militarised security in order to find human security pathways show ways in which to refute the dominant paradigm indicate a clear gender analysis that challenges the current system and suggests alternatives to militarised security With a mix of female and male feminist scholar activists as contributors the book makes an important contribution to a new discourse on human security

The Gender Imperative Betty A. Reardon, Asha Hans, 2018-07-27 This collection of essays by feminist scholar activists addresses the crucial problem of human security in a world of heavily armed militarized states It describes the gendered aspects of human security excluded from the realist militarism that dominates current security policy in most nation states The book deepens and broadens current security discourses encouraging serious consideration of alternatives to the present global security system that functions to advantage state security over human security a system the contributors perceive to be rooted in the patriarchal nature of the nation state This second edition will be of interest to academics and students of gender studies women s studies international studies development studies human rights security studies peace studies and peace education

Gender, Violence, and Human Security Aili Mari Tripp, Myra Marx Ferree, Christina Ewig, 2013-11-15 A powerful argument successfully challenges both security to address gender and feminist analysis to address security Sylvia Walby author of *New Agendas for Women*

The Relationship between Human Security Discourse and International Law Shireen Daft, 2017-12-01 The concept of human security has emerged in international relations and policy as an idea which not only seeks to relocate the focus of international society on the individual but also challenges the current priorities of the international community In particular it places emphasis on promoting and facilitating a nexus between security development and human rights It is potentially a paradigm in the making gaining considerable momentum within the UN international relations scholarship and regional bodies And yet by and large it continues to be unexplored by the international legal community despite the success of a number of international treaties being attributed to the discourse This book seeks to address this gap and establish the nature of the relationship between human security discourse and international law

determining whether human security can meaningfully contribute to the international legal framework To determine this the book analyses the core principles of human security discourse and examines the degree to which they find parallels in the existing normative structure of international law The book examines the how the broad narrow debate that dominates human security discourse has played out in international law making It goes on to consider the processes for the creation of so called human security treaties in order to determine a blueprint for future development of international human security treaty law In concluding Shireen Daft sets out a structured principled approach through which international legal scholarship can engage with human security highlighting the ways in which engagement between the two fields can be sustained

Human Security and Human Rights under International Law Dorothy Estrada-Tanck, 2016-12-01 Human security provides one of the most important protections a person centred axis of freedom from fear from want and to live with dignity It is surprising given its centrality to the human experience that its connection with human rights has not yet been explored in a truly systematic way This important new book addresses that gap in the literature by analysing whether human security might provide the tools for an expansive and integrated interpretation of international human rights The examination takes a two part approach Firstly it evaluates convergences between human security and all human rights civil political economic social and cultural and constructs an investigative framework focused on the human security human rights synergy It then goes on to explore its practical application in the thematic cores of violence against women and undocumented migrants in the law and case law of UN European Inter American and African human rights bodies It takes both a legal and interdisciplinary approach recognising that human security and its relationship with human rights cuts across disciplinary boundaries Innovative and rigorous this is an important contribution to human rights scholarship **Women's**

Perspectives on Human Security Richard Matthew, Patricia A. Weitsman, Gunhild Hoogensen Gjørsv, Nora Davis, Tera Dornfeld, 2020-11-10 Violent conflict climate change and poverty present distinct threats to women worldwide Importantly women are leading the way creating and sharing sustainable solutions Women s security is a valuable analytical tool as well as a political agenda insofar as it addresses the specific problems affecting women s ability to live dignified free and secure lives First this collection focuses on how conflict impacts women s lives and well being including rape and gendered constructions of ethnicity race and religion The book s second section looks beyond the scope of large scale violence to examine human security in terms of environmental policy food water health and economics Multidisciplinary in scope these essays from new and established contributors draw from gender studies international relations criminology political science economics sociology biological and ecological sciences and planning **New Books on Women, Gender and Feminism**

Security Disarmed Barbara Sutton,Sandra Morgen,Julie Novkov,2008 In Security Disarmed scholars policy planners and activists come together to think critically about the human cost of violence and viable alternatives to armed conflict Arranged in four parts alternative paradigms of security cross national militarization militarism in the United States and pedagogical and cultural concerns the book critically challenges militarization and voices an alternative encompassing vision of human security by analyzing the relationships among gender race and militarization

A United Nations for the 21st Century: from Reaction to Prevention Detlev Wolter,2007 This book analyzes the achievements of the UN World Summit of September 2005 in the field of conflict prevention human security and the advancement of the security development nexus The book examines the Summit Outcome Document which contains important general endorsements of the objective to strengthen conflict prevention capacities at the UN and fully supports the mission of the Special Advisor of the Secretary General on the Prevention of Genocide This document commits all Member States for the first time to develop a notion of human security that recognizes that all individuals in particular vulnerable people are entitled to freedom from fear and freedom from want It embraces the concept of a responsibility to protect against genocide ethnic cleansing and crimes against humanity The book looks at how the newly established Peacebuilding Commission can play an important overall preventive role in particular by ensuring that post conflict countries do not relapse into armed conflict It suggests the upcoming Comprehensive Report on Conflict Prevention by the UN Secretary General and a new General Assembly Resolution should operationalize and implement the shift from reaction to prevention The United Nations for the 21st Century supports the call for a special summit meeting in 2010 on conflict prevention and human security with the objective to adopt a Global Action Plan on Conflict Prevention and Human Security which should specify concrete agreements for allocating the resources necessary to bring peace planning conflict prevention and peacebuilding strategies to fruition

Journal of African Elections ,2006

There Shall be Houses, Security and Comfort Clarence Tshitereke,2009 This paper outlines the centrality of housing to sustainable livelihoods within the rubric of human security and focuses on South Africa s national housing subsidy programme its delivery output and impact on livelihoods It also discusses the primacy of security of tenure within the context of the contemporary mortgage induced international financial crisis to which South Africa has not been immune The paper argues that housing is an important element of human security and that its role in a holistic approach to improving safety should be assessed through further research
