Becoming-Social in a Networked Age Neal Thomas, 2018-01-09 This book examines the semiotic effects of protocols and algorithms at work in popular social media systems bridging philosophical conversations in human computer interaction HCI and information systems IS design with contemporary work in critical media technology and software studies. Where most research into social media is sociological in scope Neal Thomas shows how the underlying material semiotic operations of social media now crucially define what it means to be social in a networked age. He proposes that we consider social media platforms as computational processes of collective individuation that produce rather than presume forms of subjectivity and sociality.

Living with Robots Richard Pak, Ewart J. de Visser, Ericka Rovira, 2019-11-30 Living with Robots Emerging Issues on the Psychological and Social Implications of Robotics focuses on the issues that come to bear when humans interact and collaborate with robots. The book dives deeply into critical factors that impact how individuals interact with robots at home work and play. It includes topics ranging from robot anthropomorphic design degree of autonomy trust individual differences and machine learning. While other books focus on engineering capabilities or the highly conceptual philosophical issues of human robot interaction this resource tackles the human elements at play in these interactions which are essential if humans and robots are to coexist and collaborate effectively. Authored by key psychology robotics researchers the book limits its focus to specifically those robots who are intended to interact with people including technology such as drones self driving cars and humanoid robots. Forward looking the book examines robots not as the novelty they used to be but rather the practical idea of robots participating in our everyday lives. Explores how individual differences in cognitive abilities and personality influence human robot interaction. Examines the human response to robot autonomy. Includes tools and methods for the measurement of social emotion with robots. Delves into a broad range of domains military caregiving toys surgery and more. Anticipates the issues we will encountering with robots in the next ten
