Bill Gates, Pay Your Fair Share of Taxes...Like We Do! Brigitte Alepin,2012-03-28 Bill Gates and other wealthy individuals around the world do pay taxes but usually at rates far below what most taxpayers pay As Warren Buffet says his secretary pays a higher tax rate than he does on his multi million dollar income And most big corporations have mastered the art of paying next to nothing in taxes Many experts and financial journalists dismiss the idea that higher taxes for rich people and large corporations would make a difference to government revenues Even Bill Gates s personal fortune wouldn t make a dent in the huge US government deficit But Harvard trained economist and tax expert Brigitte Alepin has a different point of view Relying on her in depth knowledge of tax systems in Canada the US France and elsewhere Alepin provides a behind the scenes explanation of what has happened to create a massive gap in government revenues Over the last twenty years large corporations the super rich and private foundations have found many ways and means to avoid being taxed This black hole in government revenues found in virtually every country accounts for trillions of dollars in lost revenue every year As Alepin demonstrates using data drawn from leading international organizations those missing trillions would go a long way towards allowing the world s governments to balance their books Collecting taxes from big corporations and the super rich cannot be done by any one country alone But with governments of all political stripes facing this common problem there are concrete steps they can take together to address it Ensuring that wealthy individuals and corporations pay their fair share in taxes would not result in ruinously high rates Instead it would mean that the super rich and corporations would pay their fair share of taxes at rates that would reflect their true ability to pay Brigitte Alepin shows how a fair tax system for Bill Gates and for the world s richest individuals and corporations can be the answer to the financial crisis the world faces today **The Ultimate Obama Survival Guide** Wayne Allyn Root,2013-04-15 DON T GET MAD ABOUT OBAMAGEDDON GET EVEN Build your wealth Protect your faith and family Secure your freedom Don t just survive Obama learn how to outsmart his big government socialist system and thrive Bad times are coming how will you protect your family save enough for retirement and turn your home into a fortress In The Ultimate Obama Survival Guide Wayne Allyn Root provides the answer First he explains step by step what Obama has planned Then Root presents Y PODS Your Personal Obama Defense Shields a detailed 18 point plan to protect your assets capitalize and PROSPER as the rest of the country treads water or drowns And that s just the beginning Wayne Allyn Root is a passionate Capitalist Evangelist serial entrepreneur and small businessman extraordinaire He knows what it takes to weather any economic storm You re going to need Root s expertise as you and your family tackle the biggest challenge facing Americans today Barack Obama s second term in the White House Root takes you on a tour of the practical real life ways you can fight back and WIN not just at the ballot box but in your bank account retirement account safety deposit box on your tax forms at your church in your home your schools and at your doctor s office The Ultimate Obama Survival Guide also features exclusive advice from 18 superstars of business and finance millionaires

O'Neil Database, 2009 [The Michigan Journal](#), 2011 **Hilāl**, 2011 **What You Need to Know About Taxes** Corona Brezina, 2020-07-15

Oliver Wendell Holmes Jr justice of the U S Supreme Court once declared Taxes are what we pay for civilized society. The Internal Revenue Service includes the statement on a web page of inspirational and entertaining quotes on taxes a subject about which many teens lack practical knowledge. This engaging volume explains the many types of taxes some of which young adults may already pay and describes how taxes fund essential local state and federal services. It offers a solid grounding of taxes that can help prepare teens for financial independence and provides practical guidance including how to file personal income tax returns.

How to Govern Facebook Seth Benzell, 2020

Digital platforms such as Facebook create value by connecting users vendors and contractors. Their strong supply and demand economies of scale can give them market power and have led to increasing calls for special regulations and taxes. We construct and illustrate an approach for structural modeling of digital platforms. The model allows for heterogeneity in demand elasticity disutility from advertising and network effects across users. We parameterize our model using a survey of over 57 000 US internet users on their demand for Facebook's eponymous application. Facebook creates 14 billion in social value per month with consumer surplus concentrated among female and older users of Facebook. The most valuable friendships on Facebook are worth in excess of 50 cents per month but most are worth far less with connections to men more valuable on a per friend basis. We find that Facebook has too low a level of advertising relative to their short term profit maximizing strategy. Imputing their shadow value from maintaining a large user base we estimate that the welfare lost from Facebook's market power compared to the first best of a social welfare maximizing Facebook is 9.6% of current social value or 1.3 Billion per month. We then simulate six proposed policies for government management of digital platforms taking Facebook's optimal response into account. Taxes are mostly incident on Facebook profit and properly targeted taxes can even raise consumer surplus. Achieving perfect competition in social media would raise social surplus from Facebook by 4.8% of current value. But a botched regulation that left the US with two smaller non competitive social media monopolies would decrease social surplus by 84.7%.
