Turkey's Path To Democratization Barriers Actors Outcomes:

Turkey's Path to Democratization Muhammed Cetin, 2014-09-16 In this timely book the author addresses a number of key questions about Turkey's hard road to democratization. Is it still underway? What are the hindrances or blockages? What are the motivations and roles of civil society groupings in this evolving democracy? What is the current stance of and role of the military given Turkey's recent history of recurrent military coups d'état? The articles which follow the historical account and which provide a commentary on contemporary social and political events were written over a period of three years for publication in the English language newspaper *Today's Zaman* and are grouped in this book according to theme.

Turkey's Democratization Process Carmen Rodriguez, Antonio Avalos, Hakan Yilmaz, Ana Planet, 2013-10-30 Since the end of the 1980 coup d'état Turkey has been in the midst of a complex process of democratization. Applying methodological pluralism in order to provide a comprehensive analysis of this process in a Turkish context, this book brings together contributions from prominent Turkish, English, French, and Spanish scholars. Turkey's Democratization Process utilises the theoretical framework of J. J. Linz and A. C. Stepan in order to assess the complex process of democratization in Turkey. This framework takes into account five interacting features of Turkey's polity when making this assessment: namely, whether the underlying legal and socioeconomic conditions are conducive for the development of a free and participant society; if a relatively autonomous political society exists; whether there are legal guarantees for citizens' freedoms; if there exists a state bureaucracy which can be used by a democratic government; and whether the type and pace of Turkish economic development contributes to this process. Examining the Turkish case in light of this framework, this book seeks to combine analyses that will help assess the process of democratization in Turkey to date and will be of interest to scholars and researchers interested in Turkish Politics, Democratization, and Middle Eastern Studies more broadly.

Nationalism and Intra-State Conflicts in the Postcolonial World Fonkem Achankeng, 2015-09-28 This book highlights the complexities of nationalism and the struggles of different groups left unaddressed within the nation-states of a postcolonial world. The central question is: what happened to the worldly and radical visions of freedom, liberty, and equality that animated intellectual activists and policy makers from Woodrow Wilson in the 1920s? This book analyzes the outcome of lumping disparate groups of people together under one nation-state and holding them together against the knowledge of the incompatibility theory of plural states. In a world of arbitrarily and colonially mapped sovereign states, groups and nations with distinctive histories and cultures trapped within the borders of sovereign states want the freedom to decide their own destinies. This book challenges, deconstructs, and decolonizes Western epistemologies related to postcolonial state formation and maintenance. In examining the freedom concept that no human group ought to be determining the independence of other human groups, this book constructs an alternative conceptualization of nations and peoples' rights in the twenty-first century in which radical hopes and global dreams are recognized as central to internal nationalism struggles.
