Tropical Geomorphology:

Tropical Geomorphology Avijit Gupta, 2011-08-04 Although similar geomorphic processes take place in other regions in the tropics these processes operate at different rates and with varying intensities Tropical geomorphology therefore provides many new discoveries regarding geomorphic processes This textbook describes both the humid and arid tropics It provides thoroughly up to date concepts and relevant case studies and emphasises the importance of geomorphology in the management and sustainable development of the tropical environment including climate change scenarios The text is supported by a large number of illustrations including satellite images Student exercises accompany each chapter Tropical Geomorphology is an ideal textbook for any course on tropical geomorphology or the tropical environment and is also invaluable as a reference text for researchers and environmental managers in the tropics *Humid Tropical Geomorphology*

A. Faniran, L. K. Jeje, 1983 Environmental Change and Tropical Geomorphology Ian Douglas, Tom Spencer, 2020-05-11 The tropics provide the key to understanding much biological and Earth science This is particularly true for the study of landforms which in higher latitudes suffer great seasonal contrasts in process intensity and type and which often in the past underwent the dramatic changes of glaciation and periglaciation Yet studies in the tropics have shown that the legacy of past climate changes is much more dramatic than was formerly believed This book first published in 1985 brings together the variety of evidence about such environmental changes over a variety of timescales and sets it against the current knowledge of the nature of geomorphic processes in the tropics **Geomorphology in the Tropics** Michael F. Thomas, 1994-07-19

This source book has been designed for students of tropical environments who already have some knowledge of geomorphology and related Earth sciences It explores the special characteristics of the tropics and their impact on the balance of forces and materials within denudation systems *Geomorphology of the Tropics* Alfred Wirthmann, 2000 Geomorphological research in the humid to seasonal tropics has primarily concentrated on the most characteristic landform assemblage of this zone namely that of stepped largely undissected etchplains often dotted with inselbergs and cutting across ancient basement rocks Although the author discusses extensively this subject he puts particular emphasis on the differences of chemical weathering and land forming processes on rocks of various lithology and structure This contrast becomes most evident when comparing the highly resistant quartzitic sediments often covering the basement rocks e g the Roraima series on the Guiana shield with the easily weathered volcanics e g the Deccan traps of India The book was first published in German in 1987 However the present version is much more than a translation encompassing a range of new ideas and findings in the field of tropical geomorphology The number of maps and illustrations has also been increased

Tropical Geomorphology, 1983 *Tropical Geomorphology* Michael F. Thomas, 1976-09-24 *Climatic Geomorphology* M. Gutierrez Elorza, 2005-12-29 During the past few decades climatic geomorphology has been substantially enlarged in knowledge thanks to numerous detailed investigations the application of a large number of techniques and the

acquisition of abundant absolute dates The challenge of predicting the effects of the prophesied future global warming on morphogenetic processes and landforms has encouraged geomorphologists to study the Late Pleistocene and Holocene climatic changes from the geomorphological and geological record The advances achieved in the field of climatic geomorphology during the past years are reflected by the publication of several specific monographs about the different morphoclimatic zones The aim of this book is to provide an up to date general view of this branch of geomorphology It includes a chapter on applied geomorphology for each morphoclimatic zone providing an approximation of the main environmental problems Geoscientists geomorphologists Tropical Geomorphology Edgardo Latrubesse, 2006 Tropical Geomorphology Michael Frederic Thomas, 1974 **Tropical Geomorphology** Michael Frank Thomas, 1974 **Humid Tropical Environments** Alison Reading, Andrew C.
