Work Harry J. Holzer,Sandy Baum,2017-08-15 Practical solutions for improving higher education opportunities for  
disadvantaged students Too many disadvantaged college students in America do not complete their coursework or receive  
any college credential while others earn degrees or certificates with little labor market value Large numbers of these  
students also struggle to pay for college and some incur debts that they have difficulty repaying The authors provide a new  
review of the causes of these problems and offer promising policy solutions The circumstances affecting disadvantaged  
students stem both from issues on the individual side such as weak academic preparation and financial pressures and from  
institutional failures Low income students disproportionately attend schools that are underfunded and have weak  
performance incentives contributing to unsatisfactory outcomes for many students Some solutions including better financial  
aid or academic supports target individual students Other solutions such as stronger linkages between coursework and the  
labor market and more structured paths through the curriculum are aimed at institutional reforms All students and  
particularly those from disadvantaged backgrounds also need better and varied pathways both to college and directly to the  
job market beginning in high school We can improve college outcomes but must also acknowledge that we must make hard  
choices and face difficult tradeoffs in the process While no single policy is guaranteed to greatly improve college and career  
outcomes implementing a number of evidence based policies and programs together has the potential to improve these  
outcomes substantially* **FastWeb College Gold** Mark Kantrowitz,Doug Hardy,2006-09-26 A step by step reference for
