**A Sourcebook of Gauguin's Symbolist Followers** Russell T. Clement, Annick Houzé, Christiane Erbolato-Ramsey, 2004-06-30 Paul Gauguin 1848 1903 played a seminal role in Post Impressionist France In his writings and work he favored emotional responses to nature over intellectual uses of lines color and composition In 1888 he and Emile Bernard developed a new style called Synthetism Three groups of Gauguin s symbolist followers Pont Aven Les Nabis and Rose Croix pursued and extended the Synthetist vision This sourcebook focuses on the most prominent adherents of the three schools directly affected by Gauguin s symbolism This is the first comprehensive single volume guide and bibliography of artists in these three important French avant garde movements This work covers the entire careers of 16 artists by providing biographical sketches chronologies citations to primary and secondary literature and exhibitions Symbolism Robert Goldwater, 1979 This books strength lies in its combination of approaches Symbolism is viewed as a set of concepts and as an artistic climate Its structure allows for the inclusion of artists not normally found in most Symbolist anthologies Claude Buck, American Symbolist, 1890-1974 Paul J. Karlstrom, 1983 Symbols of the Christian Faith Alva William Steffler, 2002-02-21 Symbols of the Christian Faith is an illustrated guide to the major visual symbols used by the Christian church throughout history These stylized illustrations designed by artist Alva William Steffler are intended to provide usable up to date resources for contemporary church worship and Christian education Throughout church history symbols have been used to aid worship and to communicate difficult spiritual ideas Steffler here collects these symbols from early Christian catacomb art to the present offering fresh graphic interpretations of old visual forms The accompanying text notes the biblical sources for the various symbols and traces their use in church tradition and their links to Greco Roman culture Extensive glossaries and indexes round out the book Broadly inclusive and sensitive to the perspectives of every church tradition this volume will be an invaluable resource for churches using Christian art as well as for general readers curious about the meaning of common Christian symbols **Past Looking** Michael Ann Holly, 2018-09-05 Michael Ann Holly asserts that historical interpretation of the pictorial arts is always the intellectual product of a dynamic exchange between past and present Recent theory emphasizes the subjectivity of the historian and the ways in which any interpretation betrays the presence of an interpreter In Past Looking she challenges that view arguing that historical objects of representational art are actively engaged in prefiguring the kinds of histories that can be written about them Holly directs her attention to early modern works of visual art and their rhetorical roles in legislating the kind of tales told about them by a few classic cultural commentaries of the nineteenth and twentieth centuries Burckhardt s synchronic vision of the Italian Renaissance W Ifflin s exemplification of the Baroque Schapiro s and Freud s dispute over the meanings of Leonardo s art and Panofsky s exegesis of the disguised symbolism of Northern Renaissance painting The Caricatures and Cartoons of the 1905 Russian Revolution Margaret Bridget Betz, 1984 **The Publishers' Trade List Annual** , 1984 Flowers and Towers Nira

Tessler,2015-11-25 This book explores the meaning and symbolism of the flower motif in the art of women artists from the nineteenth century to the present day It begins with a discussion of the symbolic significance of the flower in canonical texts such as the Song of Songs in which the female lover is likened to a lily among the thorns and to an enclosed garden These allegorical images permeated into Christian iconography attaining various expressions in the plastic arts from the twelfth through nineteenth centuries The heart of the book is a discussion of the meaning of the change in representations of the flower and at the same time the appearance of amazing images of masculine skyscrapers in the works of avant garde American women artists during the 1920s and 30s in three hubs of Modernist art New York California and Mexico Tessler explains how modernist artists of various fields of art such as Glaspell Stettheimer O Keeffe Pelton Cunningham Mather Modotti and Kahlo were aware of the religious symbolism of the flower in Judaism and Christianity and turned it into an emblem of the new modern woman with her own views of the world Flowers and Towers concludes by presenting the works of contemporary feminist American artists such as Chicago and Schapiro who pay tribute to those same Modernist artists by creating a new and daring image of the flower and using feminine materials and techniques that link them as it were to their spiritual mothers      *Subject Catalog* Library of Congress,      **Encyclopedia of Library and Information Science** Allen Kent,Harold Lancour,Jay E.
